

The background of the cover is a stylized illustration. On the left, a gothic-style castle with multiple towers and windows sits atop a steep, rocky cliff. In the foreground, a large, gnarled, leafless tree with thick, twisted branches dominates the lower-left and center. The ground is covered in low-lying, scrubby vegetation. The sky is a mix of green and yellow, suggesting a sunset or sunrise. The overall style is reminiscent of classic pulp magazine illustrations.

Shades Of Dracula Uncollected Stories Of Bram Stoker:

Shades of Dracula Bram Stoker,1982 **Bram Stoker's Dracula** Carol Margaret Davison,Paul Simpson-Housley,1997-11 A collection of essays by some of the world's leading scholars analyzing and celebrating the novel's legacy in popular culture **Science and Social Science in Bram Stoker's Fiction** Carol A. Senf,2002-10-30 Best known today as the author of *Dracula* Bram Stoker also wrote several other works including *The Jewel of Seven Stars* *Lady Athlyne* and *The Lair of the White Worm* In his exploration of supernatural subjects such as vampirism he is clearly a Gothic writer The fantastic elements of his novels seem very much at odds with the world of science Stoker nonetheless draws upon a large body of scientific theory and technological innovation throughout his writings This book studies his blending of Gothic subjects with emerging discoveries in science and technology The volume begins with an overview of Stoker's familiarity with scientific and technical developments It then examines the role of science and technology in his various works which demonstrate his familiarity with civil engineering anthropology physics chemistry and archaeology While many of his writings seem to offer a rather uncritical celebration of science and its applications some works such as *The Jewel of Seven Stars* reveal what happens when science oversteps its bounds Stoker emerges as an early writer of science fiction whose work thoughtfully considers the place of science in society **The Essence and the Margin** Laura Rorato,Anna Saunders,2009 With the expansion of the EU and calls for a European constitution the question of a common European identity has become increasingly pressing in recent times However in the face of diverse national and regional traditions and the absence of an obvious European cultural imaginary the forging of a strong sense of European identity proves problematic This volume brings together case studies of national and regional images from across Europe which together suggest emerging patterns of identification within contemporary Europe patterns which may not necessarily amount to a European identity but rather to a European mode of identification The chronological structure of the volume demonstrates the increasingly problematic nature of national collective memories and past imaginaries in light of emergent marginal voices and images and suggests that it is both from beyond and within the national paradigm that new challenges are now reshaping the cultural imaginary of European communities Focusing on cultural images within film literature national narratives and myths museum exhibitions and architecture this volume is of interest to a wide variety of disciplines in the humanities and presents an interdisciplinary approach to questions of cultural memory and identity formation *Shades of dracula: uncollected stories/ edited by Peter haining* Bram Stoker,1982 **Vampires, Mummies, and Liberals** David Glover,1996 Glover's efforts reveal a writer who was more wide ranging and politically engaged than his current reputation suggests An Irish Protestant and nationalist Stoker nonetheless drew his political inspiration from English liberalism at a time of impending crisis and the tradition's contradictions and uncertainties haunt his work At the heart of Stoker's writing Glover exposes a preoccupation with those sciences and pseudosciences from physiognomy and phrenology to eugenics and

sexology that seemed to cast doubt on the liberal faith in progress He argues that Dracula should be read as a text torn between the stances of the colonizer and colonized unable to accept or reject the racialized images of backwardness that dogged debates about Irish nationhood *Bram Stoker (Abraham Stoker), 1847-1912*, 1997 This book is the first critical volume to explore Stoker's writings from historicist psychoanalytical and generic standpoints *Tuberculosis and the Victorian Literary Imagination* Katherine Byrne, 2011 This book examines representations of tuberculosis in Victorian fiction giving insights into how society viewed this disease and its sufferers *Birth of a Legend* Paul M. Chapman, 2007 A study of the influence Whitby exerted upon the planning stages and finalised form of Stoker's Gothic masterpiece Dracula Birth of a Legend examines Stoker's visit to the town on the summer of 1890 and the discoveries he made there including his first encounter with the name Dracula in an obscure old fictional transformation of the 1885 wreck of the Russian ship Dmitry into the Demeter the doomed schooner which brings Dracula to England In order to provide a context the events of 1890 are presented within the framework of Stoker's life and the continuing Dracula phenomenon The book also includes the full 1897 text of Dracula the novel perhaps one of popular English literature's finest works **Bram Stoker** Richard Dalby, William Hughes, 2004 Bram Stoker A Bibliography **Shadows in the Attic** Neil Wilson, 2000 A concise biography of each author is followed by an informed and annotated bibliography of their supernatural stories and novels Sources for further reading are also given Shadows in the Attic is not only an authoritative guide but a reliable and engrossing introduction to the whole of British supernatural fiction **BOOK JACKET** *The Whole Story* John E. Simkin, 1996 This work is the only comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences *The Degeneration of Women* Salli J. Kline, 1992 **Dracula in the Dark** James Craig Holte, 1997-05-12 One hundred years after his creation by Bram Stoker Dracula is still fascinating us This study traces the changing nature of film representations of Dracula from the early silent adaptations to recent popular dramas Holte suggests that vampire films and Dracula adaptations have become an independent genre the dark romance with its own set of narrative conventions and audience expectations combining horror and eroticism This engaging study provides readers with a natural history of the vampire an examination of the work of Bram Stoker a history and analysis of many film adaptations of Dracula a survey of contemporary criticism and theory and an extensive annotated bibliography of vampire film fiction and criticism **Dracula** Clive Leatherdale, 1993 **Dracula** Leonard Wolf, 1997-03-31 A celebration of the Dracula legend its origins incarnations and impact on Western culture Written by someone considered to be the World's premier Dracula scholar **A Guide to Irish Fiction, 1650-1900** Rolf Loeber, Magda Stouthamer-Loeber, Anne Mullin Burnham, 2006 The Guide to Irish Fiction has led to the identification of hundreds of unknown or forgotten Irish authors and their works and provides thousands of summaries of novels and anthologies Carefully documented the book presents details of the publication of Irish fiction in Ireland England North America Australia as well as several other European countries Written for literary scholars and students and for anyone
