Shadow In The Land Homosexuality In America:

Shadow in the Land William Dannemeyer, 1989 *Gay in the 80s* Colin Clews, 2017-02-03 The 1980s heralded many challenges for LGBT people around the world and Colin Clews examines these in his new book. These included the rise of the New Right in the USA, Section 28 which prohibited the promotion of homosexuality, the trial of Gayle, the Word bookshop in the UK and the continuing criminalisation of homosexuality in the majority of Australian states. Underpinning all of this was the unfolding of the AIDS crisis, a time when LGBT people realised that they were no longer simply fighting for their rights but quite literally fighting for their lives. But it wasn't all doom and gloom: by the end of the eighties there had been some very real progress. Major political parties had LGBT rights in their manifestos, trades unions increasingly took up the cause and regional legislators introduced anti-discrimination laws and policies. LGBT people became more prolific in film, television, music and literature and the LGBT community grew significantly. The book also examines the dynamics behind these changes: some the result of prolonged campaigns, others stemming from the growing influence of the pink pound dollar, others still a consequence of the growing anger at government intransigence to the AIDS crisis. *Gay in the 80s* examines a number of the events and issues in the UK, USA and Australia, giving a comprehensive perspective of LGBT reality during this decade. The book covers the broad political context of the 1980s and takes a comparative approach to events in the three countries where Colin either lived or spent large amounts of time. Colin Clews' debut book offers a unique perspective on a pivotal era in LGBT history. It will appeal to readers that want to learn more about the LGBT experience in the 1980s. Its publication also coincides with the 50th anniversary of the 1967 Sexual Offences Act which partially decriminalised homosexuality and the 30th anniversary of the Don't Die of Ignorance AIDS awareness campaign. A number of film and television events are planned to commemorate both anniversaries and Colin will be contributing to some of them. *The Antigay Agenda* Didi Herman, 2007-12-01 In *The Antigay Agenda* Didi Herman probes the values, beliefs and rhetoric of the organizations of the Christian Right, tracing the emergence of their antigay agenda. Herman explores how and why these groups made antigay activity a top priority and how it relates to their political history. A penetrating analysis of the Christian Right's antigay agenda and of how that agenda is derived from the Christian Right's peculiar vision of American history and the Christian faith. Rev Peter J Gomes, Boston Book Review. Public intellectualism at its best. A comprehensive summary of the conservative Protestant worldview. Michael Joseph Gross, Boston Phoenix Literary Section. Presents considerable information not previously part of the nation's political discourse. Herman dissects the Christian Right's antigay stance dispassionately, giving as it were the devil his due. For anyone on either side of this passionate and important conflict that is an impressive accomplishment. Hastings Wyman Jr, Washington Post Book World **Proud Heritage** Chuck Stewart, 2014-12-16 This groundbreaking three-volume reference traces the roots and development of lesbian, gay, bisexual and transgender LGBT rights and issues in the United States from the pre-colonial period to the present day. With the social, religious and political

stigmas attached to alternative lifestyles throughout history most homosexuals bisexuals and transgender people lived covertly for much of if not all of their lives Likewise the narrative of our country excludes the contributions struggles and historical achievements of this group This revealing chronologically arranged reference work uncovers the rich story of the LGBT community in the United States and discusses the politics culture and issues affecting it since the early 17th century Author Chuck Stewart traces the evolution of LGBT issues as part of our nation s shared cultural past and modern day experience Volume 1 focuses on the origins of the movement with the founding of Jamestown in 1607 through the 1970s and the beginning of gay rights activism in the United States Volume 2 spans the 1980s and the AIDs pandemic through the present day issues of marriage equality Volume 3 gives a concise review of this society in each of the 50 states the District of Columbia and Puerto Rico

Gender and Apocalyptic Desire Brenda E. Brasher, Lee Quinby, 2014-12-18 The female body has been an object of oppression and control throughout history *Gender and Apocalyptic Desire* exposes the often hidden links between the struggles of women and the conflict of good versus evil The essays examine the collisions between feminist and apocalyptic thought the ways in which apocalyptic belief functions as bodily discipline and cultural practice and how some currents of apocalyptic desire can enable women s equality A wide range of issues are examined from anti abortion terrorism to the stigmata of Christ and visions of Mary

Informed Answers to Gay Rights Questions Roger J. Monsters in the Closet Harry M. Benshoff, 1997 A history of the horror film that explores the genre s relationship to the history of homosexuality in America The horror film has offered a number of medical psychological and social models of homosexuality Examining not only the films themselves but also other related cultural products Harry Benshoff defines these models and their implications We see familiar constructions of gays and lesbians pass before our eyes homosexuality as a treatable disease as a threat to national security as a mark of the pariah *Monsters in the Closet* challenges us to more closely examine what we see

The War Against the Family William Douglas Gairdner, 1992 Believing it is high time for someone to speak out in defense of the family William Gairdner the author of *The Trouble with Canada* has turned his attention to what he calls the civil war of values that is weakening the soul of the family in Canada Among his findings Traditional marriage is being demoted in our children s textbooks as only one choice among many types of family relationships Massive funding is given to radical lobby groups devoted to destroying the family while those supporting it go begging Sex education at one time the concern of families has become the property of sexologists and peer groups The mainline churches have abandoned souls for political causes and pagan theories The law and the courts of the land are decimating the traditional privileges of the

family in the name of individual rights In writing that is vigorous and compelling Gairdner traces the war against the family to a political ideology springing from Plato Rousseau and a utopian liberalism that has become a caricature of itself everywhere promoting rights but forgetting duties Powered by this ideology the modern State eager for votes and hostile to freedom effectively weakens the family unit which it sees as a bastion of privacy privilege and authority In *The War Against the Family* Gairdner throws down the gauntlet forcing into the open a much needed debate about the future of the family in Western societies The family of today and future generations are sure to benefit Jacket flap
