**Shadow Work** Craig Lambert, 2016-04-12 With the exception of sleep humans spend more of their lifetimes on work than any other activity It is central to our economy society and the family It underpins our finances and our sense of meaning in life Given the overriding importance of work we need to recognize a profound transformation in the nature of work that is significantly altering lives the incoming tidal wave of shadow work Shadow work includes all the unpaid tasks we do on behalf of businesses and organizations It has slipped into our routines stealthily most of us do not realize how much of it we are already doing even as we pump our own gas scan and bag our own groceries execute our own stock trades and build our own unassembled furniture But its presence is unmistakable and its effects far reaching Fueled by the twin forces of technology and skyrocketing personnel costs shadow work has taken a foothold in our society Lambert terms its prevalence as middle class serfdom and examines its sources in the invasion of robotics the democratization of expertise and new demands on individuals at all levels of society The end result A more personalized form of consumption a great social leveling pedigrees don t help with shadow work and the weakening of communities as robotics reduce daily human interaction Shadow Work offers a field guide to this new phenomenon It shines a light on these trends now so prevalent in our daily lives and more importantly offers valuable insight into how to counter their effects It will be essential reading to anyone seeking to understand how their day got so full and how to deal with the ubiquitous shadow work that surrounds them
