The Shadow of Sea Wolf Minmin Wu, 2025-04-03 For those living at the southern tip of the Korean Peninsula 1946 was an unfortunate year A year earlier Japan had surrendered and Korea gained independence People returned from the battlefields to their hometowns searching for loved ones reuniting families and once again enjoying domestic bliss It should have been a year of discarding the old embracing the new rekindling spirits and starting anew But no one expected that at the very beginning of that year right wing organizations in South Korea would stir up trouble in Seoul They convened an Extraordinary National Assembly held large scale demonstrations and called for strikes and shutdowns This urgent state prompted the U S and Soviet forces stationed in North and South Korea to intensify their actions On February 6th they established a Joint Commission in Seoul to discuss how to divide the Korean Peninsula Seizing this opportunity Syngman Rhee and Kim Il sung hurriedly set up their own People's Committees and Democratic Councils in Seoul and Pyongyang respectively From that moment they actively moved toward national division and territorial independence What followed was ideological confrontation and purges of political dissidents Before long the U S military government in South Korea openly took action bloodily suppressing Korea's independent national liberation even implementing a scorched earth policy There seemed to be no end the tragedies of that year were relentless Situations that once might have been understood became utterly impossible Suspicion murder violence and plunder replaced everything The resulting irreconcilable feuds and ensuing punishments were enough to make anyone realize that life itself could be the most terrifying ordeal As long as despotic regimes that scorn human rights and disregard life exist for even a single day as long as power politics tyrannical acts poverty and hunger plunder and war continue then the development manufacture and use of biochemical weapons worldwide and the related acts of terror will persist indefinitely It is precisely because of this that the characters events and the ensuing story of The Shadow of Sea Wolf as well as works of a similar nature will not lose their impact The Eon Series Greg Bear, 2017-05-16 This saga of parallel universes from a Hugo and Nebula Award winning author may be the best constructed hard SF epic yet The Washington Post One of the world's preeminent New York Times bestselling authors of hard science fiction mesmerizes readers with a mind expanding three volume masterwork about the creation of an alternate universe that breaks down all barriers of time and space and its consequences for future and past generations Legacy In the stunning preguel to Eon and Eternity an agent of the masters of the Way a man made tunnel through countless dimensions follows a renegade fanatic and his four thousand acolytes to a remarkable world of flora fauna hybrids where he is plunged into the terrible chaos of a raging civil war Eon As nuclear tensions rapidly reach a breaking point in a volatile twenty first century a hollowed out asteroid appears mysteriously hovering above the Earth's surface The asteroid contains the remains of Thistledown an abandoned city that was once home to survivors of a nuclear holocaust Scientists must race to unravel its secrets before the human race is annihilated in the impending apocalypse Eternity A devastating war has left Earth a nuclear wasteland Orbiting the planet is an asteroid starship containing the civilization of Thistledown humanity s future descendants For decades they have worked to heal their world and its survivors but their resources are finite They need to reopen the Way a gate that would not only benefit Earth but also help the asteroid's residents return home Greg Bear's classic Eon trilogy is an astonishing feat of the imagination that combines humanism cutting edge science and brilliant extrapolation This masterful science fiction saga has no equal in contemporary speculative fiction **Eon** Greg Bear, 2014-04-01 From the New York Times bestselling author of War Dogs A novel that may be the best constructed hard SF epic yet The Washington Post In a supernova flash the asteroid arrived and entered Earth s orbit Three hundred kilometers in length it is not solid rock but a series of hollowed out chambers housing ancient abandoned cities of human origin a civilization named Thistledown The people who lived there survived a nuclear holocaust that nearly rendered humanity extinct more than a thousand years from now To prevent this future from coming to pass theoretical mathematician Patricia Vasquez must explore Thistledown and decipher its secret history But what she discovers is an even greater mystery a tunnel that exists beyond the physical dimensions of the asteroid Called the Way it leads to the home of humanity s descendants and to a conflict greater than the impending war between Earth's superpowers over the fate of the asteroid in the grandest work yet by Nebula Award winning author Greg Bear Locus Harunobu Yoné Noguchi, 1940 **The Disciple** ,1976-07 The Publishers Weekly, 1967
