Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory Musingafi, Maxwell Constantine Chando, Mafumbate, Racheal, Khumalo, Thandi Fredah, 2021-04-23
Much of our understanding of the world our societies and ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes This male dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building Feminism argues that the male dominated knowledge represents a skewed perception of reality and is only partial knowledge Feminism is a generalized wide ranging system of ideas about social life and human experience developed from a woman centered perspective It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world The best way to empower women and better the situation for women is to take women s daily experiences and their informal theorizing into account and on this basis adopt feminist approaches to building theory and knowledge Philosophising Experiences and Vision of the Female Body Mind and Soul Historical Context and Contemporary Theory provides an overview and introduction to the study of feminist theory and practice in the social sciences This book provides a starting point for further and more advanced study of the nexus of feminism gender and development and translates feminist theory and concepts into practice The chapters investigate in a historical context mainstream and contemporary theories of feminism and gender studies This book is ideal for post graduate students of social science researchers of development management business management public governance and gender and development activists feminists and practitioners stakeholders researchers academicians and students interested in feminist theory and knowledge building

Shadows John Saul, 2010-11-03 They call it the Academy A secluded cliff top mansion overlooking the rugged Pacific coast A school for children gifted or cursed with extraordinary minds Children soon to come under the influence of an intelligence even more brilliant than their own and unspeakably evil For within this mind a dark plan is taking form A plan so horrifying no one will believe it No one but the children And for them it is already too late Too late unless one young student can resist the seductive invitation that will lead into the Shadows *Kliatt Young Adult Paperback Book Guide* ,1993

Fiction Index Three Gerald Brooks Cotton, 1988

Truth and Social Reality Aaron M. Griffith, 2025-06-05 Truth and Social Reality A Metaphysical Inquiry presents a new theory of social truth and social construction The book weds truthmaker theory with recent work in social ontology arguing that social truths are true in virtue of socially constructed portions of the world It focuses on the construction of human social kinds like gender race class and disability The book offers novel accounts of social construction realism social kind pluralism social context the context dependency of social truth and social vagueness Overall Truth and Social Reality presents a realist picture of the social world on which there are objective truths about the way things are in the social world Social truth is not socially constructed

despite being grounded in a socially constructed reality The theory it provides nonetheless captures the contingency alterability and vagueness of the social world and the context dependency of social truth The book also addresses the relationships between truth power and justice It argues that truth itself is not a tool of oppression as some maintain Rather truth and truth telling play an essential role in upending oppression and achieving justice Truth and Social Reality rebuts the cynicism of the post truth age by defending the possibility and value of social truth
