and death These shadows of poetry and prose fiction point to unknown often fearful domains of human experience showing us concealed shapes of truth and possibility Crucially Hollander explores how shadows in poetic history become things with a strange substance and life of their own they acquire the power to console haunt stalk wander threaten command and destroy Shadow speaks even sings revealing to us the lost as much as the hidden self An extraordinary blend of literary analysis and speculative thought Hollander s account of the substance of shadow lays bare the substance of poetry itself **Dream**
