Shadows Of Total War:

The Shadows of Total War Roger Chickering, Stig Förster, 2003-01-16 The period between the two world wars of the twentieth century was one of the most challenging in the history of war. In anticipation of another conflict, military planners and civilian thinkers struggled after 1918 with the painful implications of World War I. Given its scope, the wholesale mobilisation of civilian populations and the targets of civilians via blockades and strategic bombing, many observers regarded this titanic conflict as a total war. They also concluded that any future conflict would bear the same hallmarks and they planned accordingly. The essays in this collection, the fourth in a series on the problem of total war, examine the interwar period. They explore the consequences of World War I, the intellectual efforts to analyse this conflict's military significance, the attempts to plan for another general war, and several episodes in the 1930s that portended the war that erupted in 1939.

The Shadows of Total War Roger Chickering, Stig Förster, 2003 Palgrave Advances in Modern Military History Matthew Hughes, 2006-09-25 This book provides a concise and accessible introduction to modern military history. The collection is a clear and up-to-date survey of the significant debates, interpretations, and historiographical shifts for a series of key themes in military history. Each chapter is supported by notes and a brief bibliography outlining further reading. **The Long Shadow** Muthiah Alagappa, 2008 The Long Shadow investigates the purposes and roles of nuclear weapons in the new security environment, the nature and content of the national nuclear strategies of relevant states, and their implications for international security and stability in the Asian security region. *Der Krieg in den Gründungsmythen europäischer Nationen und der USA* Nikolaus Buschmann, Dieter Langewiesche, 2003 *Tense Future* Paul K. Saint-Amour, 2015 *Tense Future* falls into two parts. The first develops a critical account of total war discourse and addresses the resistant potential of acts including acts of writing before a future that looks barred or predetermined by war. Part two shifts the focus to long interwar narratives that pit both their scale and their formal turbulence against total war's portrait of the social totality, producing both ripostes and alternatives to that portrait in the practice of literary encyclopedism. The book's introduction grounds both parts in the claim that industrialized warfare, particularly the aerial bombing of cities, intensifies an underexamined form of collective traumatization, a pretraumatic syndrome in which the anticipation of future conditional violence induces psychic wounds. Situating this claim in relation to other scholarship on critical futurities, Saint-Amour discusses its ramifications for trauma studies, historical narratives generally, and the historiography of the interwar period in particular. The introduction ends with an account of the weak theory of modernism now structuring the field of modernist studies and of weak theory's special suitability for opposing total war, that strongest of strong theories. *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur*, 2003 Military Government, Weekly Information Bulletin United States War Department, 1946 *Daily Lives of Civilians in Wartime Twentieth-Century Europe* Nicholas Atkin, 2008-08-30 Includes accounts of civilians' roles and experiences through wars in twentieth-century Europe. *Hitler Strikes Poland* Alexander B.

Rossino,2003 Usually given short shrift in most histories of World War II Hitler's invasion of Poland was more than a series of opening salvos it was a testing ground for German brutalities to come This is a comprehensive study of the campaign including insights into its ideological underpinnings *Leadership in Conflict, 1914-1918* Matthew Hughes,Matthew S. Seligmann,2000 The First World War was a conflict in which personality mattered Generals and politicians tried to steer a course to victory They often disagreed on strategy This book examines these disagreements Screening the Fleet Jonathan Rayner,2025-02-04 In *Screening the Fleet* Prof Jonathan Rayner explores the representation of the modern Royal Navy on British television over a fifty year period from 1973 to 2023 Contextualising his subject with significant aspects of earlier naval representation in recruiting documentary and public information films from the 1940s to the 1960s Rayner then brings his focus forward to 1973 2023 The 1970s were a significant decade for naval representation on television and saw the broadcast of two definitive series the BBC's drama series *Warship* and the acclaimed documentary series *Sailor* These landmark series set the benchmark for naval representation in both realist and in fictional portrayals They also set precedents for audience perceptions and these have affected the production and the reception of the series on the Royal Navy that have followed Rayner's work investigates how advances in technology allow programme makers to use new techniques in the spheres of naval drama and documentary More recent series also need to balance the required conventions for any portrayal of the navy on television with the revelatory or iconoclastic approaches now expected by modern audiences In focussing on the changing portrayal of the Royal Navy on television however Rayner also surfaces how the Navy itself has evolved in the post World War II world The series analysed in *Screening the Fleet* also evidence the changing nature and increasing diversity of the naval community as a reflection of changing notions of Britishness Offering the first study of its type this volume highlights evolving and emerging trends in factual and fact based television programmes through their portrayal of a highly popular patriotic and persistent subject over a fifty year period It debates developments in television and documentary approaches using the representation of the Royal Navy and its changing position in perceptions of British identity **Character and Citizenship**,1944 **Shadow on the White House** David L. Anderson,1993 Harry Truman's administration began searching for an American response to the clash in Indochina between French colonialism and Vietminh communism in 1945 Thirty years and five administrations later Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress For Truman Ford and every American leader in between the dilemma in Vietnam hung ominously over the presidency In *Shadow on the White House* seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other Focusing on the personalities politics priorities and actions of the presidents as they confronted Vietnam the authors consider the expansion of presidential power in foreign policy formulation since World War II In their analyses they chronicle the history of executive leadership as it related to Vietnam assess presidential prerogatives and motives on war and peace

issues and clarify the interconnection between the modern presidency and the nation's frustrating tragic and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience, this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations, giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources, the essays provide a framework on which to hang the kaleidoscopic events of the war. Amazon.com

The Making of the West, Combined Version (Volumes I & II) Lynn Hunt, 2009. The Making of the West offers a geographically and culturally expansive conception of the West that prepares students to understand today's globalized world. Its integrated chronological narrative makes the impact of historical developments clear by highlighting the interconnections among the politics, people, and ideas of a specific period. From the book's conception, the authors, a team of renowned scholars and expert teachers, have worked to provide a new vision of the West based on cutting-edge scholarship. The narrative, enhanced by a rich and informative art and map program, distills the latest research and consistently treats topics underserved in other books: the West in global perspective; high and popular art and culture; and gender.

John's Relationship with Mark Ian D. Mackay, 2004. This book is a literary-historical enquiry into the relationship between John and Mark, with special emphasis on the feeding saga in each. Because of the differences between these key canonised texts, the question of how their differences are to be understood is important in regard to our understanding of Biblical authority and interpretation, and in particular of the meaning and importance of the Eucharist. The research finds that the writers of John's Gospel knew Mark, and that John shows a certain degree of influence from it, both positive and negative. Ian D. Mackay surveys the debate to date, looks at general literary and strategic similarities and differences between John and Mark, and then analyses John 6 in comparison with Mark 6:8 and certain other related texts in Mark. The detailed analysis of the debate, the points of literary similarity between the two Gospels as a whole, and the emergence of Markan strategies lifted from Mark and applied in John, to supporting a literary agenda virtually contrary to that of Mark, especially in regard to the roles of the disciples and the crowds in the plot of each, as a whole, may well be useful for those interested in the question of how the four Gospels relate to one another.
