The sign is blue with white text and a small logo at the top. In the background, a few people are standing near a white wall.

Shadows Of War Violence Power And International Profiteering In The Twenty First Century:

Shadows of War Carolyn Nordstrom, 2004-05-17 In this provocative and compelling examination of the deep politics of war Carolyn Nordstrom takes us from the immediacy of war zone survival through the offices of power brokers to vast extra legal networks that fuel war and international profiteering She captures the human face of the front lines revealing both the visible and the hidden realities of war in the twenty first century *Shadows of War* is grounded in ethnographic research carried out at the epicenters of political violence on several continents Its pages are populated not only with the perpetrators and victims of war but also with the scoundrels silent heroes and average families who live their lives in the midst of explosive violence War reconfigures our most basic notions of humanity Nordstrom demonstrates This book of crucial importance at the present moment shows that war is enmeshed in struggles over the very foundations of the sovereign state the crafting of economic empires both legal and illegal and innovative searches for peace Nordstrom describes the multi trillion dollar international financial networks that support warfare She traces the entangled routes by which illegal drugs precious gems weapons basic food supplies and pharmaceuticals are moved by an international cast of businesspeople profiteers and black market operators *Shadows of War* demonstrates how the experiences of both the architects of war and of ordinary people are deleted from media accounts and replaced with stories about soldiers weapons and territory For the first time this book retrieves from the shadows the faces of those whose stories seldom reach the light of international recognition

Eine Geschichte des Krieges Bruno Cabanes, 2020-09-07 In diesem monumentalen Buch beleuchten 57 internationale Wissenschaftler innen unter Federführung des französischen Historikers Bruno Cabanes die zahlreichen Facetten kriegesischen Handelns vom 19. Jahrhundert bis in die Gegenwart In den letzten zweihundert Jahren hat sich der Krieg zu einem Phänomen entwickelt das alle Lebensbereiche betrifft und Gesellschaft Politik Kultur und Konomie verändert Der moderne Krieg zu dem oft Partisanenkämpfe Terroranschläge Massaker oder ethnische Säuberungen gehören und der immer häufiger als hochtechnologischer Cyberkrieg gefhrt wird ist entgrenzt und richtet sich zunehmend auch gegen die Zivilbevölkerung Und trotz eines immer ausgefeilteren internationalen Völkerrechts schwindet die Orientierung an Regeln der Kriegführung Um den grundlegenden Wandel moderner Kriege zu analysieren bedarf es einer Vielfalt der Disziplinen und so bietet diese Geschichte des Krieges ein multiperspektivisches Panorama aus Geschichte Soziologie Politikwissenschaft Psychologie Konomie und Anthropologie Die Expertinnen betrachten diese Veränderungen auch jenseits einer rein westlichen Perspektive in Japan China Indien oder Afrika und anderen Gegenden der Welt In ihrer außergewöhnlichen Vielfältigkeit verdeutlichen die Beiträge den Wandel des Krieges und ermöglichen es den Krieg neu zu denken **Vor aller Augen**

Gaby Zipfel, Regina Mühlhäuser, Kirsten Campbell, 2021-11-22 In Essays Reflexionen und Gesprächen zeigen die Autorinnen dieses Bandes in welchen vielfältigen Konstellationen sexuelle Gewalt in bewaffneten Konflikten auftritt Zusammenge stellt im Rahmen der International Research Group Sexual Violence in Armed Conflict fhrt das Buch in die historischen Dimensionen

ein und diskutiert zentrale politische und juristische Fragen der Gegenwart. Es geht zum Alltagswissen, dass sexuelle Gewalt in bewaffneten Konflikten allgegenwärtig ist. Gegenstand gesellschaftlicher Auseinandersetzungen und wissenschaftlicher Forschung wurde sie jedoch erst in jüngster Zeit. Die Frauenbewegungs- und Antikriegsbewegungen der 1970er Jahre hatten Vergewaltigungen im Krieg und im Frieden öffentlich thematisiert, aber erst mit der Gründung der Internationalen Strafgerichtshöfe für das ehemalige Jugoslawien und für Ruanda in den 1990er Jahren begann man sexuelle Gewalt als Kriegsverbrechen, Verbrechen gegen die Menschlichkeit und Akt des Völkermords zu begreifen. Trotz dieser Entwicklungen mangelt es bis heute an effektiven Gegenstrategien und an einem Verständnis für die Komplexität dieser Form der Gewalt.

Palgrave Advances in Peacebuilding O. Richmond, 2010-01-20. The quality of the peace arrived at via liberal peacebuilding approaches has been poor. The related statebuilding praxis has generally been unable to respond to its critics. What is at stake is a recognition of peacebuilding's everyday political, social, economic and cultural dynamics. This indicates the emergence of a post-liberal form of peace.

Conflict and Development Roger Mac Ginty, Andrew Williams, 2009-03-24. Over the past decade, a new awareness of the relationship between conflicts and development has grown. Developmental factors can act as a trigger for violence as well as for ending violence and for triggering post-conflict reconstruction. This book explores the complexity of the links between violent conflict, usually civil wars, and development under development and uneven development. It emphasizes the connections between stable developed economies and civil wars in other parts of the world and examines how structural factors such as the organization of the global economy virtually condemn some regions to conflict and underdevelopment. This valuable introductory text explains, reviews and critically evaluates this complex relationship. It focuses on intra-state conflicts and complex political emergencies that combine transnational and internal characteristics. Attention is also given to inter-state conflicts. Chapters emphasize how the relationship between conflict and development traverses many scales: macro, meso and micro, and dimensions: economic, political and cultural. Furthermore, it explains how different developmental challenges and opportunities emerge along the full life cycle of conflict. Specifically, the role of poverty, state, market, civil society, globalization, humanitarian aid, refugees, gender and health within conflict dynamics are examined. The book also investigates specific developmental issues emerging during conflict management and post-conflict reconstruction. Both authors have a background in conducting research in deeply divided societies and argue that many of the processes connected with war and peace making deliberately write people out of the equation. This book attempts to write people in. By drawing on contemporary theoretical debates and examining current policies and events, the text unpacks the difficult and complex aspects of the relationships between armed conflict and development and makes them accessible, interesting and policy relevant. It considers how peace making, peace building and post-war reconstruction are usually more sustainable and successful if politicians, policy makers, entrepreneurs and those working for international NGOs take on board local opinion and capacity. Written in an accessible style, the book considers the main contemporary theories.

and arguments on conflict development and the interactions between the two The text is illuminated throughout with case studies drawn from Africa the Balkans Asia and the Middle East The Political Economy of Conflict and Violence against Women Kumudini Samuel, Claire Slatter, Vagisha Gunasekara, 2019-08-15 The Political Economy of Conflict and Violence against Women shows how political economic social and ideological processes intersect to shape conflict related gender based violence against women Through feminist interrogations of the politics of economies struggles for political power and the gender order this collection reveals how sexual orders and regimes are linked to spaces of production Crucially it argues that these spaces are themselves firmly anchored in overlapping patriarchies which are sustained and reproduced during and after war through violence that is physical as well as structural Through an analysis of legal regimes and structures of social arrangements this book frames militarization as a political economic dynamic developing a radical critique of liberal peace building and peace making that does not challenge patriarchy or modes of production and accumulation **Conflict and Development** Andrew J. Williams, Alasdair Gordon-Gibson, 2024-09-26 Fully revised and updated in its third edition this timely book brings together the study of conflict and war and the problems surrounding the economic development of developing societies that are most prone to experiencing problems in moving on after war The book does so by reflecting on the issues surrounding war as it unfolds and after it has in principle ended within the context of the history present day problems and future prospects The book aims to highlight the possibilities successes and failures of past and present policies that bring development to countries and peoples that want to be more involved in deciding their own futures after conflict and war and often find themselves subject to what can be seen as arbitrary and even alien ways of thinking and acting by institutions in which they theoretically have membership and agency but often do not in practice The case studies have been fully updated to reflect changes and developments since the second edition of this text and there are questions at the end of each chapter to promote reflection This new edition presents a deeper dive into the history of conflict and the emergence of new theories and policy guidance about present and future options in the fields of conflict and development Accessible and engaging this textbook is a pivotal resource for a nexus of subjects related to the often separated fields of conflict and development studies as well as practitioners in this area *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur*, 2007 Bibliographie Mensuelle United Nations Library (Geneva, Switzerland), 2006-07 **Deprofessionalizing Economic Development** Tara Hefferan, 2006 **The Journal of the Royal Anthropological Institute**, 2004 Articles on all aspects of anthropology **The Dictionary of Human Geography** Derek Gregory, 2009 The Dictionary of Human Geography continues to be the one guidebook no student instructor or researcher in the field can afford to be without BOOK JACKET The British National Bibliography Arthur James Wells, 2009 *The Nation*, 2004 Forthcoming Books Rose Army, 2004 **Rebuilding Devastated Economies in the Middle East** Leonard Binder, 2007-10-15 This book analyzes the political obstacles to the adoption of classic strategies of economic recovery and development as well as the economic

consequences of democratic political reforms The case studies demonstrate that both rentierism and the democracy deficit result from a means end problem rather than an ideological problem The contributors focus on the role of the challenged rulers of shaky states where economic devastation has been the consequence of civil strife often aided and abetted by external influences But if there can be no successful rebuilding of devastated economies without some significant regime change we seem to be asking these governments to put themselves out of business

The Scale and Impacts of Money Laundering Brigitte Unger, Elena Madalina Busuioc, 2007 Money laundering is a problem of some magnitude internationally and has long term negative economic impacts This work gives an interdisciplinary overview of the state of the art of money laundering as well as describing the legal problems of defining and fighting money laundering

Governing Childhood Into the 21st Century Majia Holmer Nadesan, 2010-04-15 Neoliberal logics of government shaping childhood today produce market based frameworks for understanding childhood risks In this timely work Nadesan argues that these frameworks encourage affluent parents to pursue individualized technologies of the self to reduce risks posed to their children's future success In contrast neoliberal market frameworks regard lower income children as risky and therefore deploy targeted disciplines aimed at reducing economic and biopolitical risks to the nation Risks posed by poor children abroad derive from and legitimize a new U S security discourse that governs primarily through strategic containment and normalization yet doesn't hesitate to employ repression The current global economic crisis points to the limits and paradoxes of the neoliberal logics governing populations presenting future risks for twenty first century childhood
