Shadows Of Medusa:

Walking Shadows Tim Read, 2019-05-30 An exploration of high intensity mental states as found in the psychiatric emergency room in everyday life in psychotherapy and in spiritual practice There are certain unusual mental states that have such an extraordinary intensity that they are numinous they involve the presence of an archetype These states can be beautiful or utterly terrifying they can predispose to illness but if carefully negotiated they carry enormous potential for accelerated development How can we understand this archetypal layer of psyche and how can we work with its power to promote psycho spiritual growth The author weaves the archetypal perspective into the psychoanalytic and medical models of mind to show us how the different layers of the individual and collective psyche intertwine to give us our rich experience of being human Using everyday language and using case studies from clinical work in psychiatry and psychotherapy the author takes the reader on a journey from Breakdown to breakthrough Plato's cave to Jung's archetypal crisis Genetics to transpersonal psychology Hearing voices to post traumatic stress disorder Psychoanalysis to psychedelics The mid life crisis to the encounter with death Quantum physics to synchronicity Shakespeare to shamanism Transcendent nature to mindfulness

View of Economics Jennifer Degnan Smith,2025-07-31 This book aims to re-vision economics by taking a Jungian view of the recent global economic crisis of the 2010s focusing on Greece's challenging experience in particular Recognizing the genius loci of Greece by taking a terrapsychological approach allows Greece to be an active participant in the discussions rather than purely an object to be studied Observing the crisis through the lenses of mythology cultural complexes and the God image deepens the understanding of modern day economics These viewpoints reveal the unconscious and archetypal elements at play in the dysfunctions Exposing the foundational issues is critical to redeeming economics and confirms the value in seeing socioeconomic issues from a Jungian perspective The issues revealed through the exploration are not unique to Greece but rather reflect many of the fundamental problems of the current global economic system Thus like its ancient myths Greece's modern day story of suffering has insights for today's world The audience for this book includes and extends beyond Jungian psychology and will also appeal to some in the field of economics and those interested in the application of Jungian ideas to sociocultural issues Romancing the Shadow Connie Zweig, PhD,Steve Wolf,2009-02-04 AN UPDATED
