Fulton, 1988 *The Archaeology of Semiotics and the Social Order of Things* George Nash, George C. Children, 2008 The Archaeology of Semiotics and the social order of things is edited by George Nash and George Children and brings together 15 thought provoking chapters from contributors around the world A sequel to an earlier volume published in 1997 it tackles the problem of understanding how complex communities interact with landscape and shows how the rules concerning landscape constitute a recognised and readable grammar The mechanisms underlying landscape grammar are both physical and mental being based in part on the mindset of the individual the same landscape can thus evoke different meanings for different people and at different times People s perception has greatly influenced the construction of landscapes over millennia but until recently the potential of this area has been largely untapped Apart from chapters focusing solely upon human interaction with landscape there are several which skilfully integrate artefacts and place with landscape e g Gheorghiu and Sognnes Other chapters look at the way people have marked the landscape through such mechanisms as rock art e g Clegg Devereux Est vez Fossati Kelleher and Skier Rock art establishes personal and communal identity in relation to landscape and it is clear that other forms of visual expression were in place which distinctively created special places within the landscape Landscape constructs can bind cultures together bringing the old

ways of reading the landscape into contemporary life e g Smiseth Defining early and late prehistoric landscapes and segregating these into say mundane domestic and ritualised spaces rely on both clear and subtle archaeologies and in this volume distinct monument clustering and ritualised linearity are considered e g Mason and Nash A volume such as this cannot escape the influence of New World approaches such as anthropology and in many respects chapters by Bender Muller and Merritt give context to other chapters within the book Finally one must consider text as a means of constructing landscape and this is considered by Heyd who eloquently deconstructs the travel diary of a 17th century Japanese poet This will be an important volume for archaeologists landscape scholars and students The many approaches used are tried and tested forming an invaluable resource and not just another edited book **Weaving the Past** Susan Kellogg, 2005-09-02 Weaving the Past offers a comprehensive and interdisciplinary history of Latin America s indigenous women While the book concentrates on native women in Mesoamerica and the Andes it covers indigenous people in other parts of South and Central America including lowland peoples in and beyond Brazil and Afro indigenous peoples such as the Garifuna of Central America Drawing on primary and secondary sources it argues that change not continuity has been the norm for indigenous peoples whose resilience in the face of complex and long term patterns of cultural change is due in no small part to the roles actions and agency of women The book provides broad coverage of gender roles in native Latin America over many centuries drawing upon a range of evidence from archaeology anthropology religion and politics Primary and secondary sources include chronicles codices newspaper articles and monographic work on specific regions Arguing that Latin America s indigenous women were the critical force behind the more important events and processes of Latin America s history Kellogg interweaves the region s history of family sexual and labor history with the origins of women s power in prehispanic colonial and modern South and Central America Shying away from interpretations that treat women as house bound and passive the book instead emphasizes women s long history of performing labor being politically active and contributing to even supporting family and community well being *American Art Directory* ,1993 The biographical material formerly included in the directory is issued separately as Who s who in American art 1936 37 **Small Press Record of Books in Print** Len Fulton, 1994
