Shah Of Iran:

The Last Shah Ray Takeyh, 2021-01-26 The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries An original interpretation that puts Iranian actors where they belong at center stage Michael Doran Wall Street Journal An extraordinary account Deeply nuanced and eloquent Benjamin Weinthal Jerusalem Post Offering a new view of one of America's most important infamously strained and widely misunderstood relationships of the postwar era this book tells the history of America and Iran from the time the last Shah Mohammad Reza Pahlavi was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power This revolution was not as many believe the popular overthrow of a powerful and ruthless puppet of the United States rather it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and ultimately lost the support of every sector of Iranian society Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini significantly revising our understanding of America and Iran's complex and difficult history *The Shah's Story* Mohammad Reza Pahlavi (Shah of Iran), 1980

experienced An entire generation took its cue from the shift from oil consumption to oil production to dream of and aspire to a modernized Iran and the history of Iran in this period has tended to be presented as a prologue to the revolution Those histories usually locate the political social and cultural origins of the revolution firmly within a national context into which global actors intruded as Iranian actors retreated While engaging with that national narrative this volume is concerned with Iran s place in the global history of the 1960s and 70s It examines and highlights the transnational threads that connected Pahlavi Iran to the world from global traffic in modern art and narcotics to the embrace of American social science by Iranian technocrats and the encounter of European intellectuals with the Iranian Revolution **The Shah** Edwin Palmer Hoyt,1976

US Arms Policies Towards the Shah's Iran Stephen McGlinchey,2014-06-05 This book reconstructs and explains the arms relationship that successive U S administrations developed with the Shah of Iran between 1950 and 1979 This relationship has generally been neglected in the extant literature leading to a series of omissions and distortions in the historical record By detailing how and why Iran transitioned from a primitive military aid recipient in the 1950s to America s primary military credit customer in the late 1960s and 1970s this book provides a detailed and original contribution to the understanding of a key Cold War episode in U S foreign policy By drawing on extensive declassified documents from more than 10 archives the investigation demonstrates not only the importance of the arms relationship but also how it reflected and contributed to the wider evolution of U S Iranian relations from a position of Iranian client state dependency to a situation where the U S became heavily leveraged to the Shah for protection of the Gulf and beyond until the policy met its disastrous end in 1979 as an antithetical regime took power in Iran This book will be of interest to students and scholars of Middle East studies US Foreign Policy and Security studies and for those seeking better foundations for which to gain an understanding of U S foreign policy in the final decade of the Cold War and beyond **Great Britain & Reza Shah** Mohammad Gholi Majd,2001 A completely fresh interpretation of the 1921 1941 Pahlavi period Majd has come upon a gold mine of information on this controversial period of Persian history The details and freshness of the figures are explosive Even more explosive are the land acquisitions materials and the information on the work of the Shah s secret police Hafez Farmayan University of Texas at Austin Using recently declassified U S State Department archives Mohammad Gholi Majd

describes the rampant tyranny and destruction of Iran in the decades between the two world wars in a sensational yet thoroughly scholarly study that will rewrite the political and economic history of the country The book begins with the British invasion of Iran in April 1918 and ends with the Anglo Russian invasion in August 1941 Though historians are aware of the events that ensued until now they have had no written evidence of the dreadful magnitude of the activities Majd documents how the British brought to power an obscure and semi illiterate military officer Reza Khan who was made shah in 1925 Thereafter Majd shows Iran was subjected to a level of brutality not seen for centuries He also documents the financial plunder of the country during the period records show that Reza Shah looted the bulk of Iran s oil revenues on the pretext of buying arms amassing at least 100 million in his London bank accounts and huge sums in New York and Switzerland Not even Iran s ancient crown jewels were spared In contrast to incomplete and unreliable British records for the period the recently declassified archives and bank records that Majd uses encompass a wide range of political social military and economic matters A work with immense implications this book will correct the myth in Iranian history that the period 1921 41 was one of unqualified progress and reform
