*Shakespeare and the Geography of Difference* John Gillies, 1994-05-12 In this engaging book John Gillies explores Shakespeare's geographic imagination and discovers an intimate relationship between Renaissance geography and theatre arising from their shared dependence on the opposing impulses of taboo laden closure and hubristic expansiveness Dr Gillies shows that Shakespeare's images of the exotic the barbarous outlandish or strange are grounded in concrete historical fact to be marginalised was not just a matter of social status but of belonging quite literally to the margins of contemporary maps Through an examination of the icons and emblems of contemporary cartography Dr Gillies challenges the map makers overt intentions and the attitudes and assumptions that remained below the level of consciousness His study of map and metaphor raises profound questions about the nature of a map and of the connections between the semiology of a map and that of the theatre

Shakespeare and Race Imtiaz Habib, 2000 Shakespeare and Race is a provocative new study that reveals a connection between the subject of race in Shakespeare and the advent of early English colonialism Citing generally neglected archival evidence Imtiaz Habib argues that a small population of captured Indians and Africans brought to England during the 16th century provided the impetus for Elizabethan constructions of race rather than existing European traditions in which blackness was represented metaphorically He explores Tudor and Stuart dramatic representations of black characters focusing specifically on how race affected Shakespeare personally and historically over the course of his career Using postcolonial paradigms combined with neo Marxist feminist and psychoanalytic insights Habib discusses the possible existence of a black woman that Shakespeare knew and wrote about in his Sonnets and examines the design of his black male characters including Aaron Othello and Caliban Shakespeare and Race represents a significant contribution that will fascinate scholars of literature as well as those interested in the cultural impact of colonialism
