Shakespeare And The Arts Of Language

Russ McDonald

Shakespeare And The Arts Of Language:

Shakespeare and the Arts of Language Russ McDonald, 2001 **Shakespeare and the Arts of Language** Russ McDonald, 2001-02-01 Oxford Shakespeare Topics provide students and teachers with short books on important aspects of Shakespeare criticism and scholarship Each book is written by an authority in its field and combines accessible style with original discussion of its subject Notes and a critical guide to further reading equip the interested reader with the means to broaden research For the modern reader or playgoer English as Shakespeare used it can seem alien and puzzling vocabulary and grammar are in transition pronouns and verb forms can seem unfamiliar Moreover the conventions of poetic drama may also pose an impediment Shakespeare and the Arts of Language provides a clear and helpful guide to the linguistic and rhetorical dimensions of the plays and poems Written in a lucid non technical style the book starts with the story of how the English language changed throughout the sixteenth century Subsequent chapters define Shakespeare's main artistic tools and illustrate their poetic and theatrical contributions Renaissance rhetoric imagery and metaphor blank verse prose speech and wordplay The conclusion surveys Shakespeare's multiple and often conflicting ideas about language encompassing both his enthusiasm at what words can do for us and his suspicion of what words can do to us Throughout Russ McDonald helps his readers to appreciate a play's concerns and theatrical effects by thinking about its language in relation to other writings of the period He also emphasizes pleasure in the physical properties of Shakespeare's words their colour weight and texture the appeal of verbal patterns and the irresistible power of intensified language Shakespeare's Use of the Arts of Language Sister Miriam Joseph, 2025-08-31 First published in 1947 Shakespeare's Use of the Arts of Language is a landmark study that reveals how deeply William Shakespeare's artistry was shaped by the classical disciplines of grammar logic and rhetoric the trivium of Renaissance education Sister Miriam Joseph a distinguished scholar of English and the classics demonstrates with clarity and precision how Shakespeare absorbed the techniques of formal rhetoric and transformed them into instruments of poetic power and dramatic expression From wordplay and metaphor to the construction of speeches and soliloquies this book illuminates the subtle structures underlying the Bard's art More than a guide to Shakespeare it is also a window into the intellectual world of Elizabethan England where mastery of language was both an academic exercise and an artistic vocation Accessible to students and scholars alike it remains one of the most influential explorations of Shakespeare's literary genius A classic of Shakespearean criticism Shakespeare's Use of the Arts of Language invites readers to experience anew the depth precision and playfulness of the world's greatest playwright **Shakespeare's Use of the Arts of Language** Joseph Miriam, 1947 The Oxford Handbook of Shakespeare's Poetry Jonathan F. S. Post, 2013-07-18 The Oxford Handbook of Shakespeare's Poetry provides the widest coverage yet of Shakespeare's poetry and its afterlife in English and other languages *Shakespeare's Use of the Arts of Language* Miriam Joseph Bowman, 1949 The New Cambridge Companion to Shakespeare Margreta De Grazia, Stanley Wells, 2010-03-25 Written by a team of leading

international scholars this Companion is designed to illuminate Shakespeare's works through discussion of the key topics of Shakespeare studies. Twenty-one essays provide lively and authoritative approaches to recent scholarship and criticism for readers keen to expand their knowledge and appreciation of Shakespeare. The book contains stimulating chapters on traditional topics such as Shakespeare's biography and the transmission of his texts. Individual readings of the plays are given in the context of genre as well as through the cultural and historical perspectives of race, sexuality and gender and politics and religion. Essays on performance survey the latest digital media as well as stage and film. Throughout the volume contributors discuss Shakespeare in a global as well as a national context, a dramatist with a long and constantly mutating history of reception and performance.

Shakespeare's Use of the Arts of Language Sister Miriam Joseph (C.S.C.), 1947
Shakespeare's Use of the Arts of Language, By... Miriam Joseph,... Sister Miriam Joseph, 1949
Shakespeare David M. Bergeron, Geraldo U. de Sousa, 1987. This updated edition should be welcomed by anyone interested in Shakespeare. Particularly useful are its pithy introductions and bibliographies on various critical approaches. David Bevington, editor of *Complete Works of Shakespeare*. A handy compact map to the changing and contested field of Shakespeare studies. Bruce R. Smith, author of *Homosexual Desire in Shakespeare's England*. Copyright Libri GmbH. All rights reserved.
Shakespeare's World of Words Paul Yachnin, 2015-10-22. Was Shakespeare really the original genius he has appeared to be since the eighteenth century, a poet whose words came from nature itself? The contributors to this volume propose that Shakespeare was not the poet of nature but rather that he is a genius of rewriting and re-creation, someone able to generate a new language and new ways of seeing the world by orchestrating existing social and literary vocabularies. Each chapter in the volume begins with a key word or phrase from Shakespeare and builds toward a broader consideration of the social, poetic and theatrical dimensions of his language. The chapters capture well the richness of Shakespeare's world of words by including discussions of biblical language, Latinity, philosophy of language and subjectivity, languages of commerce, criminality, history and education, the gestural vocabulary of performance as well as accounts of verbal modality and Shakespeare's metrics. An Afterword outlines a number of other important languages in Shakespeare, including those of law, news and natural philosophy.
Walford's Guide to Reference Material: Generalia, language and literature, the arts Albert John Walford, 1998. From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias and directories, a number of important textbooks and manuals of general practice are included. While the majority of the items are books, Walford is a guide to reference material. Thus periodical articles, microforms, online and CD-ROM sources are all represented. In this volume a particular effort has been made to improve coverage of the latter two categories.
