Sex/Gender Outsiders, Hate Speech, and Freedom of Expression Martha T. Zingo, 1998-10-28 A thorough examination of speech codes as they affect free speech and gay and lesbian rights Racial, Ethnic, and Homophobic Violence Marie-Claude Barbier, Bénédicte Deschamps, Michel Prum, 2007 This volume is concerned with racial violence in America Europe and Australia Contributions focus on the question of racially motivated violence covering a wide spectrum from the extreme case of genocide to urban riots and inter ethnic fighting to symbolic violence and hate crimes *Privacy and the Constitution* Madeleine Mercedes Plasencia, 1999 First published in 2000 Routledge is an imprint of Taylor Francis an informa company *Sexuality, Subjectivity, and LGBTQ Militancy in the United States* Guillaume Marche, 2019-05-23 As LGBTQ movements in Western Europe and North America are becoming increasingly successful at awarding LGBTQ people rights especially institutional recognition for same sex couples and their families what becomes of the deeper social transformation that these movements initially aimed to achieve The United States is in many ways a paradigmatic model for LGBTQ movements in other countries This book focuses on the transformations of the United States LGBTQ movement since the 1980s highlighting the relationship between its institutionalization and the disappearance of sexuality from its most visible claims so that its growing visibility and legitimation since the 1990s have not led to an increase in militancy The book examines the issue from the bottom up identifying the links between the varying importance of sexuality as a movement theme and actors mobilization and enhances the import of subjectivity in militancy It draws attention to cultural sometimes infrapolitical forms of militancy that perpetuate the role of sexuality in LGBTQ militancy **Hate Speech Frontiers** Alexander Brown, Adriana Sinclair, 2023-11-09 No serious attempt to answer the question What is hate speech would be complete without an exploration of the outer limits of the concept s This book critically examines both the ordinary and legal concepts of hate speech contrasting social media platform content policies with national and international laws It also explores a range of controversial grey area examples of hate speech Part I focuses on the ordinary concept and looks at hybrid attacks selective attacks reverse attacks righteous attacks indirect attacks identity attacks existential denials identity denials identity miscategorisations and identity appropriations Part II concentrates on the legal concept It considers how to distinguish between hate speech and hate crime and examines the precarious position of denialism laws in national and international law Together the authors draw on conceptual analysis doctrinal analysis linguistic analysis critical analysis and diachronic analysis to map the new frontiers of the concepts of hate speech **Canadian Communication Policy and Law** Sara Bannerman, 2020-05-20 Canadian Communication Policy and Law provides a uniquely Canadian focus and perspective on telecommunications policy broadcasting policy internet regulation freedom of expression censorship defamation privacy government surveillance intellectual property and more Taking a critical stance Sara Bannerman draws attention to unequal power structures by asking the question whom does Canadian communication policy and law serve Key theories for analysis
