Sexes And Genealogies:

Sexes and Genealogies Luce Irigaray, 1993 Irigaray covers major issues in religion the law psychoanalysis and literature such as the continued neglect by psychoanalysts of the sexual and gender dimensions of therapy the urgency of female divinity for contemporary feminist movements and a reconsideration of women's relation to the market economy Sexes and Genealogies also includes Irigaray's dazzling reading of the Oresteia Body Against Body In Relation to the Mother now acknowledged as a feminist classic

Resistance, Flight, Creation Dorothea Olkowski, 2000 Thirteen women at the forefront of philosophy locate new feminist points of view within the discipline by rigorously engaging works of contemporary French philosophy In so doing they both transform the standard

practices of the field and carve out new territory These writers amplify the work of feminist philosophers such as Simone de Beauvoir Luce Irigaray and Sarah Kofman in ways that are both stylistically and substantively creative They also appropriate for radical feminist use the works of male philosophers such as Michel Foucault Gilles Deleuze Maurice Merleau Ponty and Jean Paul Sartre The essays illustrate the manner in which feminist philosophers bypass traditional methodology in favor of a disciplinary freedom characterized by fluid methodologies best exemplified in Beauvoir's work and by the employment of imaginative forms including the autobiographical and the poetic The modes of inquiry used here range variously from psychoanalysis and existentialism to deconstruction post structuralism and newly resurgent phenomenology This volume also contains a comprehensive bibliography of feminist thinkers who are enacting French philosophy in English German and French
