*Basic Education* Gerald Lee Gutek,1981 This publication clarifies the basic education movement by placing it in a historical and philosophical context In many ways the basic education movement of the 1970s is part of a continuum of similar movements in American education that have occurred with almost clocklike regularity appearing in rather regular cycles since the 1930s First the current basic education movement that originated in the 1970s is reviewed Criticisms made by proponents of basic education and some remedies proposed that may cure the problems believed to exist today in public schooling are presented The Essentialist movement of the 1930s is then examined The Essentialists were a group of professional educators who challenged the then progressive trends in American education Like today s advocates of basic education the Essentialists charged that public education despite its vast extent and heavy cost to society was appalling weak and ineffective They believed it was crucial that the curriculum be organized systematically and sequentially and that instruction stress logical chronological and causal relationships They argued that the teacher should be restored to a position of central authority in the classroom Lastly the publication discusses arguments of the educational critics of the 1950s A new educational movement called Life Adjustment Education brought about by World War II became the target for a group of educational critics The proponents of Life Adjustment Education maintained that the purpose of the schools should be broader in scope than stictly academic programs The critics perceived of the function of the school in academic terms Author RM      A Model for Teaching Thinking Skills Antoinette Maria Worsham,Anita J. Stockton,1986 As a consequence of studies

indicating that students ability to think can be improved through direct instruction this booklet presents one approach to teaching thinking skills within the context of existing curricula a model described as the inclusion process The booklet discusses what thinking skills should be taught and how to decide which skills are appropriate It then describes four approaches for teaching thinking skills infusion a separate course linkage and inclusion Next the booklet describes using the inclusion process and guidelines for teaching thinking skills using focus and application lessons The booklet concludes by discussing the universality of the inclusion process evaluating thinking skills instruction and advocating a focus on process rather than content EL     How to Individualize Learning Alan Gartner, Frank Riessman, 1977     *A Descriptive Study of the Relationship Among Sex-role, Self-confidence, and Career Selection in Women Returning to College* Jill Losee Hoehlein, 1985

*Summer School* John W. Dougherty, 1981 A brief history of the role of summer schools in American education provides the background for a discussion of how summer school can become an integral and expanded part of our school system Summer school may be viewed as a viable alternative to retention as part of the provision of equal education for handicapped students and as an opportunity for students to strengthen basic skills The summer program however should not simply duplicate the regular program It needs to be innovative and flexible Moreover summer school can serve the needs of ambitious students by offering courses these students could not pursue during the year or by allowing some students to graduate early Talented and gifted students can take advanced or special courses that utilize community resources or are specifically designed for them The concept of the extended school year has also yielded plans that make use of school buildings during the summer including extended summer school the trimester plan the multiple session plan and the quarter plan Whatever plan is followed summer school should receive the same administrative care and planning as the regular session Author WD     *The School's Role in Educating Severely Handicapped Students* Barbara L.
