Abstract

Background: Sexuality is human rights, a fundamental part of healthy life which is defined as the absence of illness, social, emotional, mental and physical welfare in relation to the sexuality and has become the consideration of health service aspect. Sexual health is one of the parts of the patient's holistic needs in which the nurse has the responsibility and nursing practice through sexual education. Sexual dimension is not an easy to discuss since culturally it is not easy to express. So, it has become a topic which needs to be explored.

Purpose: To identify the description of nursing practice in the patient's sexual health dimension and various factors which obstruct the implementation of sexual discussion.

Methods: The research was conducted using databases such as PubMed, MEDLINE, ProQuest and Google Scholar. The articles were published within the period of 2000–2018. The synthesis was done based on twenty articles with the main variables namely attitude, belief, nursing practice and obstacles in sexual discussion which comply the checklist of Joanna Briggs Institute (JBI) Critical Appraisal Checklist.

Results: There were five main topics which elaborated nursing practice when discussing sexual topic with the patient, namely the attitude in discussing sexuality topic, the level of comfort and self confidence in the discussion, initiation in discussing sexuality, spending time in discussing sexuality and the obstacle in conducting sexual discussion.

Conclusion: Lack of knowledge and the lack of continuity of education through training was one of the factors that obstructed sexual discussion with the patient.

[Words and phrases that are to do with sex in literary and spoken English - Responses to offending language from the eighteenth and nineteenth century](#) Thomas Eger, 2006-06-15 Seminar paper from the year 2001 in the subject English Language and Literature Studies Linguistics grade 1.0 Bielefeld University language English abstract In his book Dr Bowdler's Legacy Noel Perrin tells us in the first chapter that a big change of morality took place with the turn of the nineteenth century in England He puts it as follows the first new generation of the nineteenth century grew up more strait laced inhibited and conventional than its parents so that sons discussed their fathers wild oaths and daughters worried about their mothers loose sexual behaviour According to Perrin one of the cornerstones of this new way of thinking was that the people began to acquire a more reserved attitude towards sexuality The chief cause of this tendency was what can be called the rise of the idea of delicacy or the new prudery From the middle of the eighteenth century onwards delicacy came to be regarded as a special and precious characteristic especially among women Basically it means that people felt offended as soon as they were confronted with sexuality in whatever form Blushing and fainting were outward indicators of this new propriety Another consequence was that people began to keep away from anything that might be a burden on their conscience An important result of this trend was the emergence of the idea of expurgation in literature That is people simply started to remove words or scenes that were considered likely to offend or shock The pioneering work in this field was Dr Bowdler's Family Shakespeare which was published in 1807 Dr Bowdler's aim was according to the fashion of his time to exclude from this publication whatever is unfit to be read aloud by a gentleman to a company of ladies In another passage he says that he wants to enable a father to read one of Shakespeare's plays to his family circle without incurring the danger of falling unawares among words and expressions which are of such a nature as to raise a blush on the cheek of modesty As he says in the preface to the first edition Bowdler was primarily concerned with profanity and obscenity In this essay I will constrict myself to the field of obscenity in its sexual dimension In the first part of my paper I will watch a Victorian at work by examining Bowdler's version of Romeo and Juliet and comparing it to Shakespeare's What kind of words and passages does he change and in what way does he revise them Does he treat different terms in different ways

Lipka,2006 The sex laws of the Hebrew Bible are well known if not notorious From them many have concluded that in ancient Israel adultery was a capital crime that there was no conception of rape that brides had to be virgins and that women had no autonomy whatsoever But was that the reality Not if we broaden our horizon beyond the laws argues Lipka who focusses here on sexual transgression that is the trespass against sexual boundaries She finds three aspects of sexual transgression it may be transgression against religious boundaries sexual acts violating divine law against communal boundaries sexual acts violating the rights of another member of the community or against personal boundaries sexual acts imposed by force and or violence Transgressive sex is complicated But some conclusions are possible 1 Though adultery was universally disapproved of there was a wide variety of opinions on who was considered guilty who was considered the offended party who was punished what the punishment was and who should execute it 2 There was indeed a conception of rape with an understanding of its devastating emotional and psychological consequences for the victim 3 Though virginity in brides was the norm and young women were under a great deal of pressure to preserve their virginity it was unrealistic for all men in ancient Israel to expect their wives to be virgins 4 Women did not enjoy legal autonomy over their sexuality yet they were not completely powerless they had some degree of personal sexual autonomy and some took the liberty of doing with their bodies as they pleased **Sexuality in Eighteenth-century Britain** Paul-Gabriel Boucé,1982
