Olyan, Martha C. Nussbaum, 1998-07-02 Sexual orientation is a topic

of intense debate within America's religious traditions. These discussions have had a significant impact on the formation of public policy as speakers who locate themselves squarely within religious traditions have articulated positions on both sides in recent arguments concerning gays in the military, civil rights protections for gays and lesbians, gay marriage, parenting and foster parenting and benefits for partners of gay and lesbian employees of major corporations and institutions. This volume, which stems from a 1995 conference at Brown University, aims to promote both academic and public understanding of the different positions that exist on sexual orientation and its public policy dimensions within four major American religious traditions. Writers from within the Jewish community, the Roman Catholic church, Mainline Protestant churches, and African American churches explore the history and tradition of their communities on same-sex orientation, discuss the moral stance they advocate, and consider the legal and public policy implications of that stance. For each of these traditions, two opposing views are represented, and a respondent frames the issue in a larger context. The book concludes with essays by Michael McConnell and Andrew Koppelman exploring how our society might find a *modus vivendi* in a state position of neutrality on the moral status of homosexuality. This book will appeal to a broad range of readers interested in these crucial issues and in the role the religious communities play in these debates while helping to foster the climate for a more reasoned and civil dialogue.

**Sexual Orientation: A Human Right** Eric Heinze, 2023-07-24. This book is the first to examine sexual orientation from the viewpoint of international human rights law. It does not simply create a platform of rights and argue for their introduction in human rights law. Rather, it examines how extant international norms should be construed to include rights against discrimination on the basis of sexual orientation, including rights of privacy, equality, speech, expression, and association. It raises questions of cultural relativism, religious faith, social science, and legal theory. It will be of interest to international jurists, human rights organizations, gay rights organizations, constitutional scholars, and anyone interested in expanding the role of international human rights law as a formidable adversary of persecution and discrimination throughout the world.

*Constitutional Law: Rights, Liberties and Justice 8th Edition* Lee Epstein, Thomas G. Walker, 2013. Judicial decisions never occur in a vacuum; they are influenced by a myriad of political factors. From lawyers and interest groups to the shifting sentiments of public opinion to the ideological and behavioral inclinations of the justices, Epstein and Walker show how all these dynamics play an integral part in the overall development of constitutional doctrine. Drawing deeply from the spheres of political science and legal studies, the excerpted case material is skillfully analyzed and presented for today's students. Known for fastidious revising and streamlining, the authors account for the latest scholarship in the field and offer rock-solid analysis of recent landmark cases, including all the important opinions handed down through 2011. Building on the successes of the 7th edition, the book's clean layout and design clearly distinguish between commentary and opinion excerpts. Not only does the design make the book an easier read for students, it effectively showcases photos, justice biographies, and the Aftermath and Global Perspective sidebars. And based on positive user feedback, the authors have added

even more Aftermath boxes in this new edition New cases in the 8th edition Hosanna Tabor Evangelical Lutheran Church and School v Equal Employment Opportunity Commission 2012 Snyder v Phelps 2011 Brown v Entertainment Merchants Association 2011 United States v Jones 2012 Citizens United v Federal Election Commission

**Sexual Orientation and Human Rights** Robert Wintemute, 1995 2 Articles 10 and 11 **Sexual Orientation and the Law** James M. Donovan, 2006

This bibliography was conceived as an update to the 1994 original Law Library Journal Winter 1994 rather than as a wholly new work For that reason its design follows closely the topical outline of its predecessor Alterations to that outline provide suggestive indicators of the extent to which legal realities have changed in the interim This version also features an attention to foreign and international aspects of sexual orientation law that were missing in the prior documents Publisher's website

*Sexuality and Equality Law* Suzanne B. Goldberg, 2017-07-05 Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once stigmatized field has become the focus of scholarly attention This volume which includes some of the most thought provoking and hard to find essays in the field covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex and from HIV AIDS and trafficking to polygamy Through historical political and critical theoretical lenses and through a global focus the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity By placing this variety of works together *Sexuality and Equality Law* invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another The volume's introduction situates all of these works in the broader field and offers readers an extensive bibliography

**Sexual Orientation and Legal Rights** Alba Conte, 1998 *Sexual Orientation and the Law* Roberta Achtenberg, 1985 This looseleaf treatise explains the affect of the law on gay and lesbian clients in the areas of employment discrimination civil rights family law immigration criminal defense and a wide variety of other areas A collection of problem solving strategies techniques and materials are included in the work

**Discrimination on Grounds of Sexual Orientation and Gender Identity in Europe - 2nd Edition**, 2011 Many people in Europe are stigmatised because of their sexual orientation or gender identity and cannot fully enjoy their universal human rights Some of them are victims of violence others have fled to Europe from countries where they risk being persecuted Organisations representing lesbian gay bisexual and transgender LGBT persons have been denied registration or banned from organising peaceful meetings in some states in Europe Too few politicians have taken a firm stand against homophobic and transphobic expressions discrimination and violence This report presents the results of the largest socio legal study ever carried out on discrimination on grounds of sexual orientation and gender identity in the 47 member states of the Council of Europe Six thematic chapters give a broad overview of the human rights situation of LGBT persons and recommendations are provided for developing and implementing effective measures to address discrimination The report is intended as a tool for dialogue with authorities and other stakeholders It constitutes a baseline study for further action in both legislative and policy fields to ensure that all LGBT people can effectively exercise their human rights

**Sexual Orientation and Legal Rights**, 2000 **Sexual Orientation and Legal Rights** James R. Robertson, 1992 *Sexual Orientation and Legal Rights, Volumes 1 and 2* Alba Conte, 1998

**Individual Rights and the Law in Britain** Christopher McCrudden, Gerald Chambers, 1994 This book has two distinct aims First to examine those changes in British law since 1950 which have had an impact on the civil and political rights of the individual and secondly to set those changes in the context of European and international human rights law It concentrates on those rights which are broadly defined in the Universal Declaration of Human Rights the International Covenant on Civil and Political Rights ICCPR and the European Convention on Human Rights and Fundamental Freedoms ECHR and includes discussion of such major issues as prisoners rights police powers due process privacy freedom of association assembly and speech minority rights immigration and nationality racial discrimination women s and children s rights and sexual orientation The choice of topics is solidly grounded in the perspective of the international and European conventions and is not determined solely by current political debate or topicality As such it provides a stimulating study of interest to practitioners and academics alike and also a scholarly basis for further research for advanced students

**Same-sex Relationships and Beyond** Katharina Boele-Woelki, Angelika Fuchs (jurist.), 2017 The legal status of lesbian gay bisexual and transgender LGBT people has undergone significant changes in several countries but remains highly complex and difficult for those affected Although same sex partners may have the right to marry or enter into a registered partnership in one Member State this right may be denied when they exercise their right to freedom of movement The same is true for certain parent child relationships which may be recognized as such in one Member State but not another This book

explores the challenges and controversies concerning the recognition of non heterosexual relationships throughout the EU through the lens of EU legislation the case law of the CJEU and ECtHR and recent national developments Following the Irish referendum and the recent ECtHR judgment in *Oliari v Italy* more changes are expected in the near future The opening part of this book describes the current state of play in all EU Member States and beyond when formalizing a same sex relationship steady progress being the key term in describing the developments in many countries with the exception of six Eastern European States that object to legislation in this field The second part concentrates on parenthood and children s rights notably adoption surrogacy multiple parenting and the range of parenting rights for same sex couples and transsexual and transgender people The third section on gender identity and human rights discusses the legal aftermath of the European Court of Human Rights judgment in *Oliari* condemning Italy for failing to protect homosexuals right to family life Furthermore it explains European Union legislation against discrimination on grounds of sexual orientation and the challenges lesbian gay bisexual and transgender applicants are confronted with when reaching Europe as refugees The book ends with a lively debate on the right to change one s legal gender and it raises the fundamental question of whether we still need gender as a legal category or whether laws concerning partnership and parenting could feasibly be de gendered Does gender matter in the EU This book is written for both the academic and professional readership Series European Family Law Vol 42 Subject Human Rights Law Family Law EU Law
