The End of Love Eva Illouz, 2019 Introduction from choice to non choice Premodern courtship social certainty and the rise of negative relationships Confusing sex The rise of ontological uncertainty A freedom with many limits Divorce as a negative relationship Conclusion negative relations and the butterfly politics of sex Acknowledgments Notes Bibliography **Staging Queer Feminisms** Sarah French, 2017-04-13 This book examines sexuality gender and race in Australia's vibrant independent theatre and performance culture It analyses selected feminist and queer performances that interrogate the cultural construction of sexuality and gender challenge the normative trends of mainstream Australian society and culture and open up spaces for alternative representations of gender identity and sexual expression Offering the first full length study on sexuality and gender in Australian theatre since 2005 this book reveals a resurgence of feminist themes in independent performance and explores the intersection of feminist and queer politics Ranging across drag burlesque cabaret theatre and performance art the book provides an accessible and engaging account of some of the most innovative entertaining and politically subversive Australian theatrical works from the past decade The Secular Contract Alex Schulman, 2011-06-23 The Secular Contract seeks to defend the European Enlightenment's secularization of political philosophy by promoting an understanding of Enlightenment secular liberalism and extending it to contemporary issues The work proposes that the Enlightenment united the secularizing trends that occurred at the time across all areas of knowledge into a secular contract for modern politics It argues that this was a normatively valuable enterprise whose aims and arguments need to be recovered today especially in light of the challenges faced by the West including fundamentalist Christianity in the US and radical Islam in Europe Looking at the works of many thinkers such as Hobbes Jefferson Madison Rousseau the book then shifts to the present day to argue for a different liberalism as suggested by such contemporary thinkers as William Galston or Stephen Macedo An engaging read The Secular Contract will appeal to anyone interested in political theory and the history of ideas **Sexual Fluidity** Lisa M. Diamond, 2008-02-28 Is love blind when it comes to gender For women it just might be This unsettling and original book offers a radical new understanding of the context dependent nature of female sexuality Lisa M Diamond argues that for some women love and desire are not rigidly heterosexual or homosexual but fluid changing as women move through the stages of life various social groups and most important different love relationships This perspective clashes with traditional views of sexual orientation as a stable and fixed trait But that view is based on research conducted almost entirely on men Diamond is the first to study a large group of women over time She has tracked one hundred women for more than ten years as they have emerged from adolescence into adulthood She summarizes their experiences and reviews research ranging from the psychology of love to the biology of sex differences Sexual Fluidity offers moving first person accounts of women falling in and out of love with men or women at different times in their lives For some gender becomes irrelevant I fall in love with the person not the gender say some

respondents Sexual Fluidity offers a new understanding of women's sexuality and of the central importance of love *Dual Attraction* Martin S. Weinberg, Colin J. Williams, Douglas W. Pryor, 1995-06-01 For the past two generations extensive research has been conducted on the determinants of homosexuality But until now scant attention has been paid to what is perhaps the most mysterious and potentially illuminating variation of human sexual expression bisexuality Today as ignorance and fear of AIDS makes greater awareness of all forms of sexual behavior an urgent matter of private and public consequence leading sex researchers Martin Weinberg Colin Williams and Douglas Pryor provide us with the first major study of bisexuality Weinberg Williams and Pryor explore the riddle of dual attraction in their study of 800 residents of San Francisco Fieldwork intensive interviews and surveys provided a wealth of data about the nature of bisexual attraction the steps that lead people to become bisexual and how sexual preference can change over time They found that heterosexuals more often than homosexuals become bisexual that bisexual men and women differ markedly in their sexual behavior and romantic feelings that most bisexuals ultimately settle into long term relationships while continuing sexual activity outside those relationships and they also explain why transsexuals often become bisexual Moreover the authors discovered that as the AIDS crisis unfolded many bisexual men entered into monogamous relationships with women and bisexual women into more lesbian relationships Recent media accounts attest that a growing number of researchers and writers are narrowing the fundamental cause of sexual preference to a single factor biology But if as this study shows learning plays a significant part in helping people traverse the boundaries of gender if past and present intimate relationships influence their changing preferences and if bisexual activity is inseparable from a social environment which provides distinctive sexual opportunities then a mosaic of factors far more complex than those previously considered must be entertained in explaining the fuller spectrum of sexual preferences *Dual Attraction* is one of the most significant contributions to our understanding of sexuality since the original Kinsey reports and Bell and Weinberg's 1978 international bestseller *Homosexualities* It is must reading for all those interested in the study of sexual behavior especially now since the onset of AIDS
