Sexuality and Transsexuality Under the European Convention on Human Rights Damian A Gonzalez Salzberg, 2019-02-07 This book undertakes a critical analysis of international human rights law through the lens of queer theory It pursues two main aims first to make use of gueer theory to illustrate that the field of human rights law is underpinned by several assumptions that determine a conception of the subject that is gendered and sexual in specific ways This gives rise to multiple legal and social consequences some of which challenge the very idea of universality of human rights Second the book proposes that human rights law can actually benefit from a better understanding of gueer critiques since gueer insights can help it to overcome heteronormative beliefs currently held In order to achieve these main aims the book focuses on the case law of the European Court of Human Rights the leading legal authority in the field of international human rights law The use of gueer theory as the theoretical approach for these tasks serves to deconstruct several aspects of the Court s jurisprudence dealing with gender sexuality and kinship to later suggest potential paths to reconstruct such features in a queer er and more universal manner Law and Sexuality Carl Franklin Stychin, Didi Herman, 2001 Law and Sexuality brings together leading scholars from four continents to consider topics ranging from Tasmanian sodomy laws to the South African constitution from domestic partnership in Hawaii to London's urban geographies Encompassing a broad spectrum of perspectives from literary analysis and postcolonial studies to feminist queer and critical race theory their analysis maps the current state of the global intersections between law and sexuality and social change Sexuality in the Legal Arena Didi Herman, Carl Stychin, 2000-01-01 The essays in this book explore a wide range of themes of current interest and controversy with a particular focus on lesbian and gay issues nationality postcoloniality sexuality and criminality and the politics of rights struggles Feeling Queer Jurisprudence Senthorun Raj, 2020-01-09 This book draws on the analytic and political dimensions of gueer alongside the analytic and political usefulness of emotion to navigate legal interventions aimed at progressing the rights of LGBT people Scholars activists lawyers and judges concerned with eliminating violence and discrimination against LGBT people have generated passionate conversations about pursuing law reform to make LGBT injuries intimacies and identities visible while some challenge the ways legal systems marginalise queer minorities Senthorun Sunil Raj powerfully contributes to these ongoing conversations by using emotion as an analytic frame to reflect on the ways case law seeks to progress the intimacies and identities of LGBT people from positions of injury This book catalogues a range of cases from Australia the United States and the United Kingdom to unpack how emotion shapes the decriminalisation of homosexuality hate crime interventions anti discrimination measures refugee protection and marriage equality While emotional enactments in pro LGBT jurisprudence enable new forms of recognition and visibility they can also work paradoxically to cover over queer intimacies and identities Raj innovatively shows that reading jurisprudence through emotions can make space in law to affirm rather than disavow intimacies and identities that queer conventional ideas about

Performing Queer: Shaping sexualities, 1994-2004 Mikki Van Zyl, Melissa E. Steyn, 2005 This volume explores the social constructions of sexuality in South Africa as articulated in the tensions between margin and mainstream during the transition to democracy The nuances between how people experience their own sexuality how that sexuality differs over time and how they speak about it are discussed in the context of the homosexual communities of South Africa Using the hierarchy of heteronormativity this work argues that centralized constructions of sexuality are generally taken for granted and tend to gain invisibility through their pervasiveness while marginalized social positions are often visibly pathologized In a Queer Place Kate Chedgzoy, Emma Francis, Murray Pratt, 2002 How do lesbian gay and queer identities construct a relation to the institutions that are widely understood to form the basis of social belonging Starting from diverse theoretical perspectives the eleven essays in this volume further scholarly debate in the study of gender and sexuality by exploring the relation of non hetero sexualities to the geographies poetics and legalities of belonging Queer studies emerged initially in academic and activist spheres in the US and the field continues to be dominated by texts and experiences marked by those particular
