Sexuality The Female Gaze And The Arts Women The Arts And The Society:

Sexuality, the Female Gaze, and the Arts Ronald L. Dotterer, Susan Bowers, 1992 Female sexuality as expressed both in the art of women and in images of women in art is the focus of this collection of thirteen essays the second in a three volume series on women the arts and society The idea that art created by a woman has a particular relationship to the female body is explored by most of these essays

Feminism and Contemporary Art Jo Anna Isaak, 2002-09-11 Looks at the work of a diverse range of artists and explores the effect of feminist theory on art practice The book provides a provocative and valuable account of the diversity and revolutionary potential of women's art practice

Männerblicke Stefan Leonhard Brandt, 2016-12-17 *Women, Creativity, and the Arts* Diane Apostolos-Cappadona, Lucinda Ebersole, 1995 The rhetoric and mythology of Western art has always been oriented toward male artists a distortion art historians and artists have been struggling against in order to affirm and articulate the creative experiences of women The editors of this energetically intelligent anthology have selected essays about and by women in the arts The first section contains nine essays by

psychologists art historians and critics literary critics and sociologists including bell hooks Christine Battersby and Linda Nochlin who is represented by her seminal piece Why Have There Been No Great Women Artists In the second half of the book the editors have collected eloquent and stirring autobiographical writings by such twentieth century arts pioneers as Georgia O'Keeffe Martha Graham Louise Nevelson Ursula K Le Guin and Audre Lorde All have had to fight for the right to make art and then made art that has profoundly challenged not only gender roles but art itself

French Literature, Thought and Culture in the Nineteenth Century Brian Rigby, 1992-11-10 This volume adopts a varied approach to the study of the material world in the French literature thought and visual arts of the 19th century Contributors look not only at the Romantic and Realist transcendence of the Neo classical heritage of abstraction and idealism but also adopt modern critical perspectives to analyse central themes such as urbanisation fetishism and the representation of the female body

The Modern Woman Revisited Whitney Chadwick, Tirza True Latimer, 2003 Between the two world wars Paris served as the setting for unparalleled freedom for expatriate as well as native born French women who enjoyed unprecedented access to education and opportunities to participate in public artistic and intellectual life Many of these women including Colette Tamara de Lempicka Sonia Delaunay Djuna Barnes Augusta Savage and Lee Miller made lasting contributions to art and literature

Plant and Animal Metaphors as Signs of Proto-Ecofeminism Catalina Balinisteanu-Furdu, 2024-11-14 In the UK ecocriticism or the green studies originate from the British Romanticism of 1790s rather than from the American transcendentalism of the 1840s a fact reinforced by Lawrence Buell who mentioned the waves of ecocriticism in his works and analysed its evolution from a critical practice in the 1970s to the movement within the literary studies from the 1990s having two semi coordinated and interpenetrating epicentres the British Romanticism and the US nature writing In the beginning this movement was called environmental criticism or literary environmental studies or literary ecology or literary

environmentalism or green literary studies ultimately a convenient shortage was acknowledged as the suitable name ecocriticism A simple definition of ecocriticism would be the one offered by Lawrence Buell the study of the relationship between literature and the physical environment Although ecocritical canon was still in its early stages when *Wuthering Heights* *Jane Eyre* *Out of Africa* *Beatrix Potter's Tales* were written it is important for us to understand that ecocriticism has evolved in different branches so that people should perceive better their connection to nature The understanding of natural landscapes offered by both Bront Sisters in their works fits Buell's definition However *Jane Eyre* reveals a particular facet of ecocriticism ecological feminism known also as ecofeminism thus our survey on ecocriticism requires broader parameters so that the readers might understand why the female writers focus on the relationship between the female protagonists and nature *The Triumph of Modernism* Partha Mitter, 2007-11-15 *The Triumph of Modernism* probes the intricate interplay of Western modernism and Indian nationalism in the evolution of colonial era Indian art **Women of Sri Lanka** Leelangi Wanasundera, 1990 *The Feminism and Visual Culture Reader* Amelia Jones, 2010 Feminism is one of the most important perspectives from which visual culture has been theorised and historicised over the past 30 years This book brings together a wide array of writings including classic texts and polemical new pieces *Unveiling the Visible* Salima Hashmi, 2002

Women Artists and Modernism Katy Deepwell, 1998 Contributors from the UK Canada and the US demonstrate how different methodologies and approaches can be used to reveal the woman artist as a subject of histories of 20th century art They offer specific case studies of historical narratives artworks and individual artistic projects within modernism Topics include women artists and suffrage cultures gender and representation in the Harlem Renaissance and the question of decadence in 1923 Paper edition unseen 27 95 Distributed by St Martin's Press Annotation copyrighted by Book News Inc Portland OR *Pandora's Senses* Vered Lev Kenaan, 2008 The notorious image of Pandora haunts mythology a woman created as punishment for the crimes of man she is the bearer of hope yet also responsible for the Earth's desolation She binds together perpetuating dichotomies that underlie the most fundamental aspects of the Western canon beauty and evil body and soul depth and superficiality truth and lie Speaking in multiplicity Pandora emerges as the first sign of female complexity In this compelling study Vered Lev Kenaan offers a radical revision of the Greek myth of the first woman She argues that Pandora leaves a decisive mark on ancient poetics and shows that we can unravel the profound impact of Pandora's image once we recognize that Pandora embodies the very idea of the ancient literary text Locating the myth of the first woman right at the heart of feminist interrogation of gender and textuality Pandora's Senses moves beyond a feminist critique of masculine hegemony by challenging the reading of Pandora as a one dimensional embodiment of the misogynist vision of the feminine Uncovering Pandora as a textual principle operating outside of the feminine Lev Kenaan shows the centrality of this iconic figure among the poetics of such central genres as the cosmological and didactic epic the Platonic dialogue the love elegy and the ancient novel Pandora's Senses innovates our understanding of gender as a critical lens
