## **Sgml Users Guide To Iso 8879:**

*SGML* Joan M. Smith, Robert Stutely, 1988      **SGML Buyer's Guide** Charles F. Goldfarb, Steve Pepper, Chet Ensign, 1998  
The SGML Buyer's Guide helps experts and beginners to analyze the publishing process and to evaluate and choose the best tools and services for their needs. It also presents a new methodology developed by the authors that simplifies and optimizes publishing systems. The CD ROM contains a professionally chosen selection of SGML and XML freeware, a graphics package and demos of many commercial SGML software packages.      *Bibliography on SGML (Standard Generalized Markup Language) and Related Issues* Robin Cover, 1991      *The Humanities Computing Yearbook 1989-1990* Ian Lancashire, 1991  
This is the second in a series of comprehensive annual reference guides to the use of computers in all the disciplines of the humanities. Like its predecessor, this volume provides a taxonomy of the field and an annotated survey of publications, research centers, text archives, and termbanks, electronic communications software and hardware relevant to the humanities. It also includes special larger entries for important software that offer up-to-date information and practical help in applying that information to research projects and instruction in colleges and universities. For the 1989-1990 edition, Lancashire has for the first time appointed an international advisory board of specialists to assist in discovering, assembling, and evaluating materials for inclusion and to keep up with the rapidly developing nature of the field and its international constituency. Lancashire has included many completely new or revised sections, including a major new chapter on computing in Law. A monumental work of current and enduring value. The Humanities Computing Yearbook will prove invaluable to a wide range of students, teachers, and researchers in humanities and social sciences, computational linguistics, and related fields in computer science.      *A Companion to Digital Humanities* Susan Schreibman, Ray Siemens, John Unsworth, 2008-03-03.
