Shade Of Homer A Study In Modern Greek Poetry

SJ Ball

Shade Of Homer A Study In Modern Greek Poetry:

The Shade of Homer David Ricks, 1989-11-30 In exploring the significance of Homer for the poetry of modern Greece benign shade or looming shadow Dr Ricks is tackling a theme that has implications for the study of poetic influence in general In this 1989 book he takes the work of Sikelianos Cavafy and Seferis and subjects a selection of poems to a careful scrutiny These poems are not imitations of Homer but fresh engagements with Homeric themes and comparison of the modern versions with the original is found to be illuminating for the poets methods of composition Dr Ricks does not lose sight of the larger significance of his subject and modern poets from outside Greece Eliot and Pound in particular find their way into the discussion All Greek is translated and the reader has no need to be a specialist in modern or in ancient Greek to find this study absorbing and instructive

Ancient Greek Myth in Modern Greek Poetry Peter Mackridge, 1996 This volume contains essays by 15 scholars One essay deals with myth in the Cretan renaissance 16th 17th centuries while the rest cover the use of ancient myth by 19th and 20th century poets Finally Peter Bien compares attitudes to the ancient Greeks in English and modern Greek poetry

The Routledge Handbook of Classics and Queer Theory Ella Haselswerdt, Sara H. Lindheim, Kirk Ormand, 2023-09-29 New directions in queer theory continue to trouble the boundaries of both queerness and the classical leading to an explosion of new work in the vast and increasingly uncharted intersection between these disciplines which this interdisciplinary volume seeks to explore This handbook convenes an international group of experts who work on the classical world and queer theory The discipline of Classics has been involved with and implicated in queer theory from the start By placing front and center the rejection of heteronormativity queer theory has provided Classics with a powerful tool for analyzing non normative sexual and gender relations in the ancient West while Classics offers queer theory ancient material such as literature visual arts and social practices that challenges a wide range of modern normative categories The collection demonstrates the vitality of this particular moment in queer classical studies featuring an expansive array of methodologies applied to the interdisciplinary field of Classics Embracing the indeterminacy that lies at the core of queer studies the essays in this volume are organized not by chronology or genre but rather by overlapping categories under the following rubrics queer subjectivities queer times and places queer kinships queer receptions and ancient pasts queer futures The Routledge Handbook of Classics and Queer Theory offers an invaluable collection for anyone working on queer theory especially as it applies to premodern periods it will also be of interest to scholars engaging with the history of sexuality both in the ancient world and more broadly

Modern Greek Studies Yearbook , 1996

Encyclopedia of Greece and the Hellenic Tradition Graham Speake, 2021-01-31 Hellenism is the living culture of the Greek speaking peoples and has a continuing history of more than 3 500 years The Encyclopedia of Greece and the Hellenic Tradition contains approximately 900 entries devoted to people places periods events and themes examining every aspect of that culture from the Bronze Age to the present day The focus throughout is on the Greeks themselves and the continuities within

their own cultural tradition Language and religion are perhaps the most obvious vehicles of continuity but there have been many others law taxation gardens music magic education shipping and countless other elements have all played their part in maintaining this unique culture Today Greek arts have blossomed again Greece has taken its place in the European Union Greeks control a substantial proportion of the world s merchant marine and Greek communities in the United States Australia and South Africa have carried the Hellenic tradition throughout the world This is the first reference work to embrace all aspects of that tradition in every period of its existence An Introduction to Modern Greek Literature Roderick Beaton,1994 The book highlights those writers and works which have enjoyed critical or popular acclaim and emphasizes the relationships which link one work with another and with its historical context It moves from the varying responses to European Romanticism which defined Greek literature in the nineteenth century culminating in the work of Palamas and Cavafy in the first decades of this century to the Modernist influenced work of the years from the 1920s to 1945 *Classical and Modern Literature* ,1991 The Journal of Hellenic Studies ,1992 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII *Encyclopedia of Ancient Greece* Nigel Guy Wilson,2006 Examining every aspect of the culture from antiquity to the founding of Constantinople in the early Byzantine era this thoroughly cross referenced and fully indexed work is written by an international group of scholars This Encyclopedia is derived from the more broadly focused Encyclopedia of Greece and the Hellenic Tradition the highly praised two volume work Newly edited by Nigel Wilson this single volume reference provides a comprehensive and authoritative guide to the political cultural and social life of the people and to the places ideas periods and events that defined ancient Greece **Dialogos** David Ricks,Michael Trapp,2014-04-08 Dialogos encompasses Greek language and literature Greek history and archaeology Greek culture and thought present and past a territory of distinctive richness and unsurpassed influence It seeks to foster critical awareness and informed debate about the ideas events and achievements that make up this territory by redefining their qualities by exploring their interconnections and by reinterpreting their significance within Western culture and beyond *Untersuchungen zum Einfluss der homerischen Odyssee auf die Odyssee des Nikos Kazantzakis* Frank Franziskus Bretschneider,2007 *National Poetry, Empires and War* David Aberbach,2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice freedom and the brotherhood of man but also at times burning with humiliation and grievance hatred and lust for revenge driving human kind as the Austrian poet Grillparzer put it From humanity via nationality to bestiality National Poetry Empires and War considers national poetry and its glorification of war from ancient to modern times in a series of historical social and political perspectives Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires this book has much on pre modern national poetry but focuses chiefly on post 1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron Whitman D Annunzio Yeats Bialik and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism

Many national poets are the subject of countless critical and biographical studies but this book aims to give a panoramic view of national poetry as a whole. It will be of great interest to any scholars of nationalism, Jewish Studies, history, comparative literature and general cultural studies.

Modern Greece Vangelis Calotychos, 2004-01-01. The glorious classical legacy of Greece is universally revered. But this legacy has come at a price. How will Greece ever move beyond its ties with the past? Is there such a thing as modern Greece? This book is the first to present an alternative cultural history of Greece. Beginning with the growth of Greece as a nation state through to the present, it shows how modern Greece has long been undervalued and neglected. From the compositional process of the first National Poet to the first feminist text, the first sustained Marxist treatise of Greek society to the Athens subway system, this groundbreaking book brings together a fascinating mix of literary texts, maps and aspects of material culture to uncover the identity of modern Greece. In considering these rich cultural landmarks, Calotychos argues that a new relationship with the past must be forged if Greek literature, culture and society are to be truly part of the present and meet the challenges of modernity.

Modern Greece: A Cultural Poetics fills a major gap. Its refreshing approach provides an original insight into the everyday lived experience of Greece. The intriguing range of case studies, the historical depth and the engagement with cultural and literary theory will be of great value to literature students, cultural theorists, anthropologists, philologists and historians alike.

The Free Besieged and Other Poems Dionysios Solomos, Peter Thompson, 2000. *A.U.M.L.A.*, 1991. **Journal of the Hellenic Diaspora**, 2000. **Poetry** Harriet Monroe, 2002. *The American Bibliography of Slavic and East European Studies*, 1991. **Arion**, 2005. **Research & Publications Report**, 1988.
