Congress, 1975    Roadmap to Reality Thomas J. Elpel, 2010-11-24 What if our entire experience of reality were based on an assumption that could be proven false In Roadmap to Reality Thomas J Elpel tests the assumption that we are a sentient self aware species and finds evidence suggesting otherwise Like automatons we copy beliefs and behaviors from generation to generation without consciously evaluating why we do what we do We absorb a definition of reality and act on it without ever questioning the source of that

definition In short we don't act we react Roadmap to Reality is the quest to unravel the illusions to discover what reality really is The journey follows the link between technology and thought showing how hunter gatherer agricultural industrial and informational societies define reality in predictable ways In essence production technology dictates how we perceive cause and effect how we solve problems and how we approach parenting and governing Roadmap to Reality sequentially follows simple ideas and commonsense logic to reveal how consciousness and worldviews evolve in layers over time Roadmap to Reality enables the reader to step outside of ordinary reality to obtain a fresh perspective on culture government prosperity sustainability and meaning The quest takes the reader to the ends of the universe with a casual writing style peeling back the layers of consciousness to discover the reality beyond Roadmap to Reality will change your perspective of history and world events and it will change you enabling you to let go of preconceived notions about the nature of reality to discover a more holistic more satisfying life experience
