Shadow In My Eye:

The Refraction of the Eye Gustavus Hartridge, 1891 *The Principles and Practice of Surgery* John Ashhurst, 1885

The Edinburgh Encyclopaedia, 1832 *The Edinburgh Encyclopædia Conducted by David Brewster, with the Assistance of Gentlemen Eminent in Science and Literature*, 1832 **In the Eye's Mind** R. Steven Turner, 2014-07-14 One of the most persistent controversies of modern science has dealt with human visual perception It erupted in Germany during the 1860s as a dispute between physiologists Hermann von Helmholtz Ewald Hering and their schools Well into the twentieth century these groups warred over the origins of our capacity to perceive space over the retinal mechanisms that mediate color sensations and over the role of mind experience and inference in vision Here R Steven Turner explores the impassioned exchanges of those rival schools both to illuminate the clash of theory and to explore the larger role of controversy in the development of science Controversy he suggests is constitutive of scientific change and he uses the Helmholtz Hering dispute to illustrate how polemics and tacit negotiation shape evolving theoretical stances Turner focuses on the arguments and issues of the dispute issues that ranged from the interpretation of color blindness and optical illusions to the therapeutic practices of clinical ophthalmology As well he focuses on the personalities institutions disciplinary structures and methodological commitments that shaped the dispute including the schools rhetorical strategies He explores the incommensurability of the protagonists viewpoints and examines the reception of the theories and the changing fortunes of the schools Finally Turner traces the controversy into the twentieth century where the issues continue to inform the study of vision today Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Edinburgh Encyclopædia*, 1832

American Practical Navigator Nathaniel Bowditch, 2002 **A Corpus of Rembrandt Paintings** J. Bruyn, B. Haak, S.H. Levie, P.J.J. van Thiel, 2013-05-14 Since the second half of the last century art historians realizing that the image of Rembrandt's work had become blurred with time have attempted to redefine the artist's significance both as a source of inspiration to other artists and as a great artist in his own right In order to carry on the work started by previous generations a group of leading Dutch art historians from the university and museum world joined forces in the late 1960s in order to study afresh the paintings usually ascribed to the artist The researchers came together in the Rembrandt Research Project which was established to provide the art world with a new standard reference work which would serve the community of art historians for the nearby and long future They examined the originals of all works attributed to Rembrandt taking full advantage of today's sophisticated techniques including radiography neutron activation autoradiography dendrochronology

and paint sample analysis thereby gaining valuable insight into the genesis and condition of the paintings The result of this meticulous research is laid down chronologically in the following Volumes A Corpus of Rembrandt Paintings Volume I which deals with works from Rembrandt s early years in Leiden 1629 1631 published in 1982 THIS VOLUME A Corpus of Rembrandt Paintings Volume II covering his first years in Amsterdam 1631 1634 published in 1986 A Corpus of Rembrandt Paintings Volume III goes into his later years of reputation 1635 1642 published in 1990 Each Volume consists of a number of Introductory Chapters as well as the full Catalogue of all paintings from the given time period attributed to Rembrandt In this catalogue each painting is discussed and examined in a detailed way comprising a descriptive an interpretative and a documentary section For the authenticity evaluation of the paintings threedifferent categories are used to divide the works in A Paintings by Rembrandt B Paintings of which Rembrandt s authorship cannot be positively either accepted or rejected and C Paintings of which Rembrandt s authorship cannot be accepted This volume Volume II contains 900 pages starting of with five introductory chapters and discussing 101 paintings In clear and accessible explanatory text all different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging *Photoheliographic Results* Royal Greenwich Observatory,1878 **Arrows of the chace, a collection of scattered letters published chiefly in the daily newspapers, 1840-1880, and now ed. by an Oxford pupil [A.D.O.
