Shadow Line:

Lines of Flight John Hughes, 1997-05-01 This book offers a sustained engagement with the writings of the increasingly influential French philosopher and writer on literature Gilles Deleuze offering an introduction to his fascinating body of work and emphasizing its multiple possibilities for literary study Deleuze offers a philosophy of becoming whose many aspects are gaining increasing importance in a variety of disciplines both on the Continent and in Anglo American circles Accordingly the first part of the book stresses the distinctiveness of Deleuze's work setting out its provenance and recurrent concerns and developing an account of its relevance for literary theory and literary criticism The second part of the book provides in these latter contexts close readings of several late nineteenth and early twentieth century works of fiction by Hardy Gissing Conrad and Woolf Above all Deleuze's work opens up ways of reading that enable an articulation of fundamental ethical and effective issues explored and staged within literary texts

,1897 **Our Conrad** Peter Mallios,2010-09-21 Our Conrad is about the American reception of Joseph Conrad and its crucial role in the formation of American modernism Although Conrad did not visit the country until a year before his death his fiction served as both foil and mirror to America's conception of itself and its place in the world Peter Mallios reveals the historical and political factors that made Conrad's work valuable to a range of prominent figures including Fitzgerald Faulkner Richard Wright Woodrow Wilson and Theodore and Edith Roosevelt and explores regional differences in Conrad's reception He proves that foreign authored writing can be as integral a part of United States culture as that of any native Arguing that an individual writer's apparent national gendered racial political identity is not always a good predictor of the diversity of voices and dialogues to which he gives rise this exercise in transnational comparativism participates in post Americanist efforts to render American Studies less insular and parochial [Advances in Multimedia Information Processing - PCM 2005](#) Yo-Sung Ho,Hyoung Joong Kim,2005-10-19 We are delighted to welcome readers to the proceedings of the 6th Pacific Rim Conference on Multimedia PCM The first PCM was held in Sydney Australia in 2000 Since then it has been hosted successfully by Beijing China in 2001 Hsinchu Taiwan in 2002 Singapore in 2003 and Tokyo Japan in 2004 and finally Jeju one of the most beautiful and fantastic islands in Korea This year we accepted 181 papers out of 570 submissions including regular and special session papers The acceptance rate of 32% indicates our commitment to ensuring a very high quality conference This would not be possible without the full support of the excellent Technical Committee and anonymous reviewers that provided timely and insightful reviews We would therefore like to thank the Program Committee and all reviewers The program of this year reflects the current interests of the PCM's The accepted papers cover a range of topics including all aspects of multimedia both technical and artistic perspectives and both theoretical and practical issues The PCM 2005 program covers tutorial sessions and plenary lectures as well as regular presentations in three tracks of oral sessions and a poster session in a single track We have tried to expand the scope of PCM to the artistic papers which need not to be strictly technical *Urban Transit Systems and Technology* Vukan R.
