Shadow of the Giant Orson Scott Card, 2005-03-01 Bean's past was a battle just to survive He first appeared on the streets of Rotterdam a tiny child with a mind leagues beyond anyone else He knew he could not survive through strength he used his tactical genius to gain acceptance into a children's gang and then to help make that gang a template for success for all the others He civilized them and lived to grow older Then he was discovered by the recruiters for the Battle School For Earth was at war a terrible war with an inscrutable alien enemy A war that humanity was near to losing But the long distances of interstellar space has given hope to the defenders of Earth they had time to train military geniuses up from childhood forging them into an irresistible force in the high orbital facility called the Battle School That story is told in two books Orson Scott Card's beloved classic Ender's Game and its parallel Ender's Shadow Now in Shadow of the Giant Bean's story continues Bean was the smallest student at the Battle School but he became Ender Wiggins right hand Since then he has grown to be a power on Earth He served the Hegemon as strategist and general in the terrible wars that followed Ender's defeat of the alien empire attacking Earth Now he and his wife Petra yearn for a safe place to build a family something he has never known but there is nowhere on Earth that does not harbor his enemies old enemies from the days in Ender's Jeesh new enemies from the wars on Earth To find security Bean and Petra

must once again follow in Ender's footsteps They must leave Earth behind in the control of the Hegemon and look to the stars
