Beauty: Exploring Critical Perspectives Pierre Wilhelm, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Rather than accept society's preferred metaphors about beauty at face value the authors in this volume question the fact that beauty can also surprise us in the least foreseeable setting at the most unexpected moment and in the most surprising or unsettling ways Their work underscores beauty's ephemeral transitory fleeting and at times confounding nature The way beauty reveals itself to us they point out may challenge or even contradict established conventions norms and values about aesthetics The emergence of unconventional metaphors and analogies about beauty in these chapters calls on us to pay attention to competing and seemingly intractable connotations of fear darkness ugliness oppression repression callousness and dejection that won't leave us indifferent to their appeal How we as researchers envisage beauty as a topic of investigation tells us as much about our conceptualization of beauty arising from particular scientific perceptions as about the language and symbols that express this perception It raises the important question about why we rely on conceptual constructs to explain beauty and whether beauty remains a mystery to be explored or ultimately one best left unexplained

Bodies Out of Bounds Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of *Such a Pretty Face Being Fat in America* A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of *Confessing Excess Women and the Politics of Body Reduction* This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that have made fat

incorrect Echoing the spirit of the nineteenth century adage about children who should be neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of Face Value The Politics of Beauty Through textual analyses video film analyses television theory and literary theory this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of The Most Beautiful Girl in the World Beauty Pageants and National Identity Fat Sex: New Directions in Theory and Activism Helen Hester,Caroline Walters,2016-03-09 While fat sexual bodies are highly visible as vehicles for stigma there has been a lack of scholarly research addressing this facet of contemporary body politics Fat Sex New Directions in Theory and Activism seeks to rectify this bringing debates about fat sex into the academic arena and providing a much needed critical space for voices from across the spectrum of theory and activism It examines the intersection of fat sex and sexuality within a contemporary cultural landscape that is openly hostile towards fat people and their perceived social and aesthetic transgressions Acknowledging and engaging with some of the innovative work being done by artists activists and academics around the issue of fat sex this collection both challenges preconceptions regarding fatness and sexuality but also critiques and debates various aspects of the fat activist approach It draws on a wide range of disciplinary perspectives bringing together work from the UK US Europe and Australia to offer a wide ranging examination of the issues of size sex and sexuality A cutting edge exploration not only of fat sex but of identity politics neoliberalism and contemporary body activism in general Fat Sex New Directions in Theory and Activism will be of interest to scholars of sociology cultural studies geography porn studies and literary studies working on questions of gender sexuality and the body **The Body Reader** Lisa Jean Moore,Mary Kosut,2010-02 An essential collection of readings on cultural social and emotional understandings of the body Plastic surgery obesity anorexia pregnancy prescription drugs disability piercings steroids and sex re assignment surgery over the past two decades there have been major changes in the ways we understand treat alter and care for our bodies The Body Reader is a compelling cutting edge and timely collection that provides a close look at the emergence of the study of the body From prenatal genetic testing and manscaping to televideo cybersex and the meth economy this innovative work digs deep into contemporary lifestyles and current events to cover key concepts and theories about the body A combination of twenty one classic readings and original essays the contributors highlight gender race class ability and sexuality paying special attention to bodies that are at risk bodies that challenge norms and media representations of the body Ultimately The Body Reader makes it clear that the body is not neutral it is the entry point into cultural and structural relationships emotional and subjective experiences and the biological realms of flesh and bone Contributors Patricia Hill Collins Karen Dias H Hugh Floyd
