Shadowcatchers 30 Historical Photos Of Native Americans:

The Trans-Mississippi and International Expositions of 1898-1899 Wendy Jean Katz, 2018-02 The Trans Mississippi Exposition of 1898 celebrated Omaha's key economic role as a center of industry west of the Mississippi River and its arrival as a progressive metropolis after the Panic of 1893 The exposition also promoted the rise of the United States as an imperial power at the time on the brink of the Spanish American War and the nation's place in bringing civilization to Indigenous populations both overseas and at the conclusion of the recent Plains Indian Wars The Omaha World's Fair however is one of the least studied American expositions Wendy Jean Katz brings together leading scholars to better understand the event's place in the larger history of both Victorian era America and the American West The interdisciplinary essays in this volume cover an array of topics from competing commercial visions of the cities of the Great West to the role of women in the promotion of City Beautiful ideals of public art and urban planning and the constructions of Indigenous and national identities through exhibition display and popular culture Leading scholars T J Boisseau Bonnie M Miller Sarah J Moore Nancy Parezo Akim Reinhardt and Robert Rydell among others discuss this often misunderstood world's fair and its place in the Victorian era ascension of the United States as a world power

Navajo and Photography James C. Faris, 1996 This thorough critical examination of photographic practices calls attention to the inability of most photography to communicate the lived experiences of native people or their history Faris's survey beginning with the earliest photographs of Navajos in captivity at the Bosque Redondo and including the most recent glossy picture books and calendars points up the western assumptions that have always governed photographic representation of Navajo people Drawing on exhaustive archival research to unearth rarely published photographs as well as unpublished photographs by well known photographers Faris documents Navajo resistance to the West's view and viewfinder and persistent attempts to overcome or dismiss such resistance He challenges the photographic history of the Navajo people as presented by photographers historians and anthropologists and explores the social and legal conditions that make such photography possible Confronting many readers' nostalgic expectations Navajo and Photography will appeal to all those with an interest in the juxtaposition of cultures
