The Shakespeare-Cervantes Code David Yuhas, 2004 Power and Imagination Leonidas Donskis, 2008 Classical and modern literature often reveal more about the organized world's forms of power and authority structures than do works of political philosophy What are the origins of political consciousness How does our understanding of political power and its exercise originate in literature Why do the early manifestations of political and religious tolerance appear in utopian literature rather than in philosophical treatises Is it possible to do fictionally what others tend to do academically and theoretically Exploring these questions allows Leonidas Donskis to analyze the relationship between power and imagination politics and literature and the principles of reality and imagination Mordserfolg Dorothea Löcker, Alexander Potyka, 2014-06-25 Zum Verlagsjubil um versammeln sich Autorinnen und Autoren aus der Geschichte des Picus Verlags und tun das was sie am besten k nnen erz hlen Was sie erz hlen k nnte unterschiedlicher nicht sein Lassen Sie sich entf hren in sechzehn Universen in sechzehn spannende Geschichten in sechzehn absonderliche Verbrechen Krimis von Theodora Bauer Harald Darer Ren Freund Sabine M Gruber Egyd Gst ttner Rudolf Habringer Ivan Ivanji Germ n Kratochwil Daniela Meisel Michael Saur Thomas Sautner Sylvie Schenk Cordula Simon Stefan Slupetzky Judith W Taschler und Andreas Weber

Shakespeare's Literary Lives Paul Franssen, 2016-01-21 This is an entertaining account of Shakespeare's afterlives in fiction Paul Franssen offers the first sustained analysis of stories and films that involve the character of Shakespeare Taking a broad international and historical perspective he shows how fictions about Shakespeare help us understand what he meant to a certain age nation or author and how they have become a vital aspect of the Shakespeare industry Appearing sometimes as a ghost or time traveller fictional Shakespeares have been made to speak to many issues such as the French Revolution the Irish conflict colonialism the Anglo American relationship sexual orientation race and class Written in an accessible style this book will appeal to advanced students as well as academic researchers in Shakespeare studies film and cultural studies literary reception and creative writing **Theater-Bewusstsein** Wojciech Dudzik, 2011 Hermeneutics and the **Problem of Translating Traditional Arabic Texts** Alsayed M. Aly Ismail, 2017-08-21 This book focuses on the problematic issues arising when translating and interpreting classical Arabic texts which represent a challenging business for many scholars especially with regards to religious texts Additionally the reception of these interpretations and translations not only informs the perception of Muslims and their awareness of the outside world but also impacts the vision and perception of non Muslims of Islam and the Muslim world Consequently this book reconsiders the concepts of understanding and interpretation and their nexus in the mechanism of translation and proposes a novel hermeneutic method of translating interpreting and understanding traditional and classical Arab texts Handling the issues of understanding from a hermeneutical perspective is shown here to remove the possibility of translation and interpretation rendering a distorted translated text Drawing on the powerful interpretive theories of Hans Georg Gadamer and Martin Heidegger the hermeneutic method of translation starts

from a premise that the meaning of a classical text cannot be deduced solely by linguistic analysis of its words but requires in depth investigation of the invisible contextual elements that control and shape its meaning Traditional texts are seen in this model as travelling texts whose meaning is transformed across time and space The hermeneutic method of translation allows the translator to identify those elements from the real world that informed a classical text at the time of its writing so that it can be adapted and made relevant to its contemporary context Traditional texts can enlighten our minds and cultivate our souls religious texts can elevate our behavior and thinking and help refine our confused contemporary lives When texts become isolated from their world they lose this lofty goal of enlightenment and elevation
