Shakespeare, Spenser and the Contours of Britain Joan Fitzpatrick, 2004 Issues of gender religion and landscape in the works of Shakespeare and Spenser are examined through the lens of colonialism and national identity in this literary critical analysis This period in early modern English literature is marked by a redefinition of what it means to be British and close readings of the texts reveal Spenser's developing and ambivalent sense of Irishness and Shakespeare's alleged Catholic recusancy The relationship between biographical details and imaginative writing reveal the conflicting issues of literary reputation and identity that make discussions of nationalism so complex Pastoralism versus ruralism and internal insurrection versus foreign invasion are among the themes discussed Archipelagic English John Kerrigan, 2008-02-07 John Kerrigan's unique study of 17th century anglophone literature explores remarkable work produced in Wales Scotland and Ireland and shows how preoccupied Shakespeare Milton and Marvell were with the interactions between the peoples of the British Irish archipelago This major book resets the terms of the debate for scholars of the period Memory in Shakespeare's Histories Jonathan Baldo, 2011-12-22 A distinguishing feature of Shakespeare's later histories is the prominent role he assigns to the need to forget This book explores the ways in which Shakespeare expanded the role of forgetting in histories from King John to Henry V as England contended with what were perceived to be traumatic breaks in its history and in the fashioning of a sense of nationhood For plays ostensibly designed to recover the past and make it available to the present they devote remarkable attention to the ways in which states and individuals alike passively neglect or actively suppress the past and rewrite history Two broad and related historical developments caused remembering and forgetting to occupy increasingly prominent and equivocal positions in Shakespeare's history plays an emergent nationalism and the Protestant Reformation A growth in England's sense of national identity constructed largely in opposition to international Catholicism caused historical memory to appear a threat as well as a support to the sense of unity The Reformation caused many Elizabethans to experience a rupture between their present and their Catholic past a condition that is reflected repeatedly in the history plays where the desire to forget becomes implicated with traumatic loss Both of these historical shifts resulted in considerable fluidity and uncertainty in the values attached to historical memory and forgetting Shakespeare's histories in short become increasingly equivocal about the value of their own acts of recovery and recollection

**Early Modern English Literature and the Poetics of Cartographic Anxiety** Chris Barrett, 2018-03-02 The Cartographic Revolution in the Renaissance made maps newly precise newly affordable and newly ubiquitous In sixteenth century Britain cartographic materials went from rarity to household d cor within a single lifetime and they delighted inspired and fascinated people across the socioeconomic spectrum At the same time they also unsettled upset disturbed and sometimes angered their early modern readers Early Modern English Literature and the Poetics of Cartographic Anxiety is the first monograph dedicated to recovering the shadow history of the many anxieties provoked by early modern maps and

mapping in the sixteenth and seventeenth centuries A product of a military arms race often deployed for security and surveillance purposes and fundamentally distortive of their subjects maps provoked suspicion unease and even hostility in early modern Britain in ways not dissimilar from the anxieties provoked by global positioning enabled digital mapping in the twenty first century At the same time writers saw in the resistance to cartographic logics and strategies the opportunity to rethink the way literature represents space and everything else This volume explores three major poems of the period Edmund Spenser s *The Faerie Queene* 1590 1596 Michael Drayton s *Poly Olbion* 1612 1622 and John Milton s *Paradise Lost* 1667 1674 in terms of their vexed and vexing relationships with cartographic materials and shows how the productive protest staged by these texts redefined concepts of allegory description personification bibliographic materiality narrative temporality analogy and other elemental components of literary representations Intellectual and Imaginative Cartographies in Early Modern England Patrick Murray,2022-08-05 Taking as its focus an age of transformational development in cartographic history namely the two centuries between Columbus s arrival in the New World and the emergence of the Scientific Revolution this study examines how maps were employed as physical and symbolic objects by thinkers writers and artists It surveys how early modern people used the map as an object whether for enjoyment or political campaigning colonial invasion or teaching in the classroom Exploring a wide range of literature from educational manifestoes to the plays of Marlowe and Shakespeare it suggests that the early modern map was as diverse and various as the rich culture from which it emerged and was imbued with a whole range of political social literary and personal impulses Intellectual and Imaginative Cartographies in Early Modern England 1550 1700 will appeal to all those interested in the History of Cartography 1 Henry IV Stephen Longstaffe,2011-08-18 An introduction to Shakespeare s I Henry IV introducing its critical and performance history current critical landscape and new directions in research on the play

**Uncommon Tongues** Catherine Nicholson,2013-12-18 *Uncommon Tongues* explores the tension between the political value of eloquence and its classical definition in sixteenth century English literature locating eccentricity and unfamiliarity at the heart of pedagogical rhetorical and literary culture *The Spenser Review* ,2005 **Cahiers Élisabéthains** ,2004

**Archipelagic Identities** Philip Schwyzer,Simon Meador,2004 The devolutionary shifts in British politics and the nature of British identity lead the contributors to this study to ask when and where was Britain The notion of an Atlantic Archipelago is unfamiliar yet it allows a fresh approach to literary criticism and the assimilation of external ideas from neighbours

**Shakespeare Survey** Allardyce Nicoll,2005 An annual survey of Shakespearian study and production Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur ,2007 Notes and Queries William John Thoms,2005

*Annual Bibliography of English Language and Literature* Modern Humanities Research Association,2005 Includes both books and articles *Staging Ireland* Stephen O'Neill,2007 This book is a comprehensive study of the representation of Ireland in the plays of Shakespeare and his contemporaries Through a detailed analysis of a range of canonical and less

familiar plays such as *The Misfortunes of Arthur* Captain Thomas Stukeley Sir John Oldcastle and Dekker's *The Honest Whore* this book reveals fascinating interconnections between Ireland as it was figured in Elizabethan and early Jacobean drama and contemporaneous political and cultural anxieties about Ireland and Irish alterity Exploring how the stage provided a fluid though licensed space where such anxieties were negotiated and confronted this study questions views of the stage Irishman as a static colonialist stereotype Instead it demonstrates that dramatic representations of Ireland were dynamic heterogeneous and ideologically unstable Opening up Renaissance drama to its multivalent Irish contexts *Staging Ireland* will appeal to scholars and students of Shakespeare and early modern literature drama and theatre as well as Irish studies

Book Review Index ,2006 Every 3rd issue is a quarterly cumulation      **Forthcoming Books** Rose Arny,2004      *Joyce in the Belly of the Big Truck; Workbook* Joyce A. Cascio,2005-05      *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2005      Between Nations David Baker,1997-12-01 Fusing historiography with literary criticism *Between Nations* produces an array of unexpected readings of early modern texts Starting from the premise that England has never been able to emerge or define itself in isolation from its neighbors on the British Isles this book places Renaissance England and its literature at a meeting of English Irish Scottish and Welsh histories It ranges from the late sixteenth through the late seventeenth centuries and deals with the reigns of three monarchs and one regicide those of Elizabeth I James I Charles II and Oliver Cromwell However it shifts the domain they ruled from the customary center into interactions between England and the other British polities The author argues that England was able to develop into what we call a nation only in and by means of its relations with the other proto nations that often it was also suppressing Among the authors who served one or more of the four English rulers are Shakespeare Spenser and Marvell who are studied here in the way they responded to the complexities of British history that encompassed their nation They not only participated in nation building destroying but their works are shown often to be meditations on that process and their own roles in the process In *Henry V* for example Shakespeare both produces a vision of an ideal Britain and inscribes into his play the voices of various British peoples that are meant to be subsumed Spenser's *A View of the Present State of Ireland* which is often taken as an anti Gaelic screed is more plausibly seen as a text compounded of heterogeneous cultural influences many of them originating from within Ireland The complexity of the text reflects Spenser's own situation as a colonial official exiled from one British nation England to another Ireland In *An Horatian Ode upon Cromwell's Return from Ireland* Marvell explicitly considers the consequences of a campaign that historians have called the War of the Three Kingdoms In that and in a later poem *The Loyal Scot* Marvell emerges as a shrewd commentator on the British politics of his day Throughout the book demonstrates that historical readings of this period's English literary works can be as multivalent and multicentric as the British history that produced them
