Saint Augustine's Meter and George Herbert's Will William H. Pahlka, 1987 Saint Augustine's Meter and George Herbert's Will William H. Pahlka, 1987-01-01 The Pulse of Praise Julia Carolyn Guernsey, 1999 Guernsey draws on D W Winnicott's object relations model which focuses on self development in a relational context to illuminate various senses of self and Other that Herbert's poems express discursively and formally The book will appeal not only to Herbert scholars and other Renaissance critics but also to audiences interested in psychoanalysis and how it relates to literature religion culture and poetics **BOOK JACKET** **Canons and Wisdoms** Albert Cook, 1993 In *Canons and Wisdoms* Albert Cook addresses what is arguable the most profound question about poetry and literature What is its human value Cook claims that the value lies in the special yield of wisdom rich full and not available in other forms of human discourse This somewhat traditional position is reinforced by the related arguments of such philosophers as Adorno and Heidegger and by other works in Renaissance poetry and modern poetry and fiction where the sense of the work becomes clearer when it is seen in the light of such a question Cook addresses what can be claimed for poetry and literature after all due allowance has been made for the relativity of canons the subjectivity of the literary experience and the subtle and comprehensive effects of received expectations Such questions have dominated recent discussions about the value of literature The nature of all human utterance argues for its being aimed at social inclusion formalized as a canon even though such a notion must remain ideal *Canons and Wisdoms* is an eloquent and original contribution to the ongoing debate about the canon It is the work of an experienced erudite and individualistic scholar working at the intersection of philosophy and literary theory and criticism
