Safe Space How To Survive In A Threatening World:

Urteilsbildung im Dialog Peter Starke, Joe Bornträger, 2024-02-15 Urteilsbildung ist in allen Fächern mit denselben zentralen didaktischen Prinzipien verknüpft wie etwa Lebenswelt, Gegenwart und Problemorientierung. Dennoch stehen unterschiedliche Erkenntnistheorien, Anforderungsgehalte und didaktisch-methodische Inszenierungsmöglichkeiten in den Fachlogiken bereit, um die jeweiligen Weltzugänge im Unterricht zur Darstellung zu bringen. Die Autorinnen dieses Bandes diskutieren deshalb aus interdisziplinärer Perspektive soziale, emotionale und historische Dimensionen des Urteilens, stellen empirische Befunde vor und fragen nach Möglichkeiten der Urteilsbildung im digitalen Raum.

What's Happened To The University? Frank Furedi, 2016-10-17 The radical transformation that universities are undergoing today is no less far-reaching than the upheavals that it experienced in the 1960s. However, today when almost 50 per cent of young people participate in higher education, what occurs in universities matters directly to the whole of society. On both sides of the Atlantic, curious and disturbing events on campuses have become a matter of concern not just for academics but also for the general public. What is to be made of the growing trend of banning speakers? What's the meaning of trigger warnings, cultural appropriation, micro-aggression or safe spaces? And why are some students going around arguing that academic freedom is no big deal? What's Happened To The University offers an answer to the questions of why campus culture is undergoing such a dramatic transformation and why the term moral quarantine refers to the infantilising project of insulating students from offence and a variety of moral harms.

How Fear Works Frank Furedi, 2018-06-14 In 1997 Frank Furedi published a book called *Culture of Fear*. It was widely acclaimed as perceptive and prophetic. Now Furedi returns to his original theme as most of what he predicted has come true. In *How Fear Works* Furedi seeks to explain two interrelated themes: why has fear acquired such a morally commanding status in society today and how has the way we fear today changed from the way that it was experienced in the past? Furedi argues that one of the main drivers of the culture of fear is unravelling of moral authority. Fear appears to provide a provisional solution to moral uncertainty and is for that reason embraced by a variety of interests, parties and individuals. Furedi predicts that until society finds a more positive orientation towards uncertainty, the politicisation of fear will flourish. Society is continually bombarded with the message that the threats it faces are incalculable and cannot be managed or contained. The ascendancy of this outlook has been paralleled by the cultivation of helplessness and passivity; all this has heightened people's sense of powerlessness and anxiety. As a consequence, we are constantly searching for new forms of security, both physical and ontological. What are the drivers of fear? What is the role of the media in its promotion and who actually benefits from this culture of fear? These are some of the issues Furedi tackles to explain the current predicament. He believes that through understanding how fear works, we can encourage attitudes that will help bring about a less fearful future.
