**Sallust on the Gods and the World**

Sallust, 2017-08-05 This volume contains three pieces of composition each of which though inconsiderable as to its bulk is inestimable as to the value of its contents. On the Gods and the World is the production of Sallust, a 4th century pagan philosopher. It is a beautiful epitome of the Platonic philosophy in which the most important dogmas are delivered with such elegant conciseness, perfect accuracy, and strength of argument that it is difficult to say to which the treatise is most entitled our admiration or our praise. The Sentences of Demophilus are a collection from the works of ancient Pythagoreans by whom they were employed like proverbs on account of their intrinsic excellence and truth. Along with five hymns by the philosopher Proclus, this volume also includes five hymns by the translator Thomas Taylor.

**World** Sallustius, 2017-09-22 Sallustius or Sallust was a 4th century writer, a friend of the Roman Emperor Julian. He wrote the treatise *On the Gods and the Cosmos*, a kind of catechism of 4th century Hellenic paganism. Sallustius' work owes much to that of Iamblichus of Chalcis, who synthesized Platonism with Pythagoreanism and theurgy, and also to Julian's own philosophical writings. The treatise is quite concise and generally free of the lengthy metaphysical theorizing of the more detailed Neoplatonic texts. Its aim is in part to parry the usual onslaughts of Christian polemic in the face of Christianity's growing preeminence and meet the theology with theology. Sallustius' exact identity is a matter of some uncertainty. By some he is identified as Flavius Sallustius, a native of Spain who was praetorian prefect of Gaul from 361 until 363, and Julian's

colleague as consul in 363 by others with Saturninius Secundus Salutius died after 367 AD a native of Gaul who was praetorian prefect of the Orient in 361 The latter is said to have been offered the purple but declined it after Julian's death

they This book takes as its starting point the chapter called On the Blissful Islands in Part Two of Nietzsche's Thus Spoke Zarathustra and its enigmatic conclusion The beauty of the Superman came to me as a shadow From this remarkable and powerful passage it disengages the Nietzschean idea of the Superman and the Jungian notion of the shadow moving these concepts into a new interdisciplinary direction In particular On the Blissful Islands seeks to develop the kind of interpretative approach that Jung himself employed Its chief topics are classical the motif of the blissful islands psychological the shadow and philosophical the *bermensch* or superman blended together to produce a rich intellectual historical discussion By bringing context and depth to a nexus of highly problematic concepts it offers something new to the specialist and the general reader alike So this book considers the significance of the statue in the culture of antiquity and in alchemy and investigates the associated notion of self sculpting as a form of existential exercise This Neoplatonic theme is pursued in relation to a poem by Schiller at the centre of which lies the notion of self sculpting thus highlighting Nietzsche's and Jung's relationship to Idealism Its conclusion directly addresses the vexed and controversial question of Nietzsche's relation to Plato This book's main ambition is to provide a cross cultural interdisciplinary reading of key themes and motifs using Jungian ideas in general and Jung's vast seminar on Zarathustra in particular to uncover a dimension of deep meaning in key passages in Nietzsche Engaging the reader directly on major existential questions it aims to be an original thought provoking contribution to the history of ideas and to show that Zarathustra was right There still are blissful islands This book will be stimulating reading for analytical psychologists including those in training and academics and scholars of Jungian studies Nietzsche and the history of ideas
