

# The 16:8 Approach to Intermittent Fasting

## What is 16:8 fasting?

Every day, you fast for 16 hours, then eat within an 8-hour window.

For example...

## Fast between 8 pm and 12 noon

You can have water, or coffee and tea (with no milk or sugar).

## Eat between 12 noon and 8 pm

You can have anything you want (though healthy foods are encouraged) without counting calories or macros.

**The Alzheimer's Antidote**  
 Amy Berger, 2017-03-25 If you or someone you know suffers from Alzheimer's I highly recommend this book Robb Wolf New York Times bestselling author An important and informative text an excellent book Dr David Perlmutter New York Times bestselling author A revolutionary multi pronged nutrition and lifestyle intervention to combat Alzheimer's disease at its roots from Certified Nutrition Specialist Amy Berger Amy Berger's research shows that Alzheimer's results from a fuel shortage in the brain As neurons become unable to harness energy from glucose they atrophy and die leading to classic symptoms like memory loss and behavioral changes This is a revolutionary approach one that has been discussed in the scientific literature for years but has only recently been given credence in clinical settings thanks to extremely promising studies wherein Alzheimer's patients have experienced complete reversals of the condition Medical and scientific journals are full of research showing alternate ways to fuel the starving brain but no one has been bringing this essential information to the people who need it most until now In a culture obsessed with miracle medications the pharmaceutical route for tackling Alzheimer's has been a massive failure Pills and potions don't address underlying causes and regarding Alzheimer's they typically fail to improve even the symptoms As a metabolic problem the only effective way to treat Alzheimer's may be a multifaceted approach that fundamentally reprograms energy generation in the brain The good news is the secret is as simple as switching to a low carb high fat diet The Alzheimer's Antidote shows us that cognitive decline is not inevitable but if it does occur we don't have to sit idly by and wait helplessly while it progresses and worsens Amy Berger empowers loved ones and caregivers of Alzheimer's sufferers and offers hope and light against this otherwise unnavigable labyrinth of darkness
