**Applied Finite Mathematics** Soo Tang Tan, 1994 This book is the best seller of the Tan series It has been extensively revised and has incorporated many valuable comments and suggestions from both users and reviewers The writing style applications exercises treatment of systems of equations and examples have always been high points of the text The text incorporates technology through the addition of computer graphing calculator exercises and applications are very in tune with every day life scenarios in all types of disciplines The new use of four color enhancement has brought this text up to speed with the main competitors

**Modern Mathematical Statistics with Applications** Jay L. Devore, Kenneth N. Berk, 2011-12-07 Modern Mathematical Statistics with Applications Second Edition strikes a balance between mathematical foundations and statistical practice In keeping with the recommendation that every math student should study statistics and probability with an emphasis on data analysis accomplished authors Jay Devore and Kenneth Berk make statistical concepts and methods clear and relevant through careful explanations and a broad range of applications involving real data The main focus of the book is on presenting and illustrating methods of inferential statistics that are useful in research It begins with a chapter on descriptive statistics that immediately exposes the reader to real data The next six chapters develop the probability material that bridges the gap between descriptive and inferential statistics Point estimation inferences based on statistical intervals and hypothesis testing are then introduced in the next three chapters The remainder of the book explores the use of this methodology in a variety of more complex settings This edition includes a plethora of new exercises a number of which are similar to what would be encountered on the actuarial exams that cover probability and statistics Representative

applications include investigating whether the average tip percentage in a particular restaurant exceeds the standard 15% considering whether the flavor and aroma of Champagne are affected by bottle temperature or type of pour modeling the relationship between college graduation rate and average SAT score and assessing the likelihood of O ring failure in space shuttle launches as related to launch temperature     The Software Encyclopedia 2000 Bowker Editorial Staff,2000-05
