responsibilities concern about the welfare of all its members and sharing ideas freely The author predicts that the ever increasing volume and accessibility of information will eventually bring down some of the Western world s most entrenched paradigms in society culture and politics Tomorrow s global community will consist of a wide array of private partnerships eventually replacing the nation state The corporate and business shell will begin to atrophy as a new gift economy replaces it promising a free flow of information and knowledge rather than the adherence to a bottom line mentality centered about intellectual property rights and profit motives This optimistic view of the future is based upon events now occurring It may take many years for the new global community finally to emerge yet as more and more information creates uncertainty confusion and mistrust in central authority the sooner partnership networks will replace existing institutions *God Needs Salvation* Hugh Rock,2014-11-28 Many people today have deserted the old forms of religion But does this make them any the less religious Hugh Rock s message is that people are inherently religious The necessary task today is to articulate anew the reality of religion In a wide ranging survey that draws together the past fifty years of liberal theology and sociological discussion about the interface of religion and popular culture he concludes that it is in our new respect for the autonomous self fulfilment of the potential of every person s life that can be found the message transferred out of the New Testament
