growing Latino population In this groundbreaking book Otto Santa Ana argues that far from being mere figures of speech such metaphors produce and sustain negative public perceptions of the Latino community and its place in American society precluding the view that Latinos are vested with the same rights and privileges as other citizens Applying the insights of cognitive metaphor theory to an extensive natural language data set drawn from hundreds of articles in the Los Angeles Times and other media Santa Ana reveals how metaphorical language portrays Latinos as invaders outsiders burdens parasites diseases animals and weeds He convincingly demonstrates that three anti Latino referenda passed in California because of such imagery particularly the infamous anti immigrant measure Proposition 187 Santa Ana illustrates how Proposition 209 organizers broadcast compelling new metaphors about racism to persuade an electorate that had previously supported affirmative action to ban it He also shows how Proposition 227 supporters used antiquated metaphors for learning school and language to blame Latino children s speech rather than gross structural inequity for their schools failure to educate them Santa Ana concludes by calling for the creation of insurgent metaphors to contest oppressive U S public discourse about minority communities El-Hi Textbooks and Serials in Print ,2006
