resources pollution energy related health problems dependency on unpleasant and unstable regimes Furthermore isn't sustainable energy expensive difficult to harvest unreliable and not yet available by a long shot And didn't E-concern itself go bankrupt during the financial crisis Van Wijk's optimism seems to be against the odds But those who are prepared to take an unbiased look at the energy possibilities already existing today get a whole new perspective Sustainable energy for everyone all over the world does appear to be a goal within reach both technologically and financially And much much quicker than many would tend to believe In this book Ad van Wijk currently professor in Future Energy Systems at Delft Technical University succeeds in presenting a refreshing new outlook on the energy phenomenon It is concise surprising and a very good read too full of day to day examples hence the title How to boil an egg It is a surprisingly optimistic book indeed But surprisingly realistic too *A First Reading List for Administrators and Teachers in Part-time Schools* University of California, Berkeley.
