Social Science Experiments Donald P. Green, 2022-09-14 This book is designed for an undergraduate one semester course in experimental research primarily targeting programs in sociology political science environmental studies psychology and communications Aimed at those with limited technical background this introduction to social science experiments takes a practical hands on approach After explaining key features of experimental designs Green takes students through exercises designed to build appreciation for the nuances of design implementation analysis and interpretation Using applications and statistical examples from many social science fields the textbook illustrates the breadth of what may be learned through experimental inquiry A chapter devoted to research ethics introduces broader ethical considerations including research transparency The culminating chapter prepares readers for their own social science experiments offering examples of studies that can be conducted ethically inexpensively and quickly Replication datasets and R code for all examples and exercises are available online

Data Science - Analytics and Applications Peter Haber, Thomas J. Lampoltshammer, Helmut Leopold, Manfred Mayr, 2022-03-29 Organizations have moved already from the rigid structure of classical project management towards the adoption of agile approaches This holds also true for software development projects which need to be flexible to adopt to rapid requests of clients as well to reflect changes that are required due to architectural design decisions With data science having established itself as corner stone within organizations and businesses it is now imperative to perform this crucial step for analytical business processes as well The non deterministic nature of data science and its inherent analytical tasks require an interactive approach towards an evolutionary step by step development to realize core essential business applications and use cases The 4th International Data Science Conference iDSC 2021 brought together researchers scientists and business experts to discuss means of establishing new ways of embracing agile approaches within the various domains of data science such as machine learning and AI data mining or visualization and communication as well as case studies and best practices from leading research institutions and business companies The proceedings include all full papers presented in the scientific track and the corresponding German abstracts as well as the short papers from the student track Among the topics of interest are Artificial Intelligence and Machine Learning Implementation of data mining processes Agile Data Science and Visualization Case Studies and Applications for Agile Data Science Organisationen sind bereits von der starren Struktur des klassischen Projektmanagements zu agilen Ansätzen übergegangen Dies gilt auch für Softwareentwicklungsprojekte die flexibel sein müssen um schnell auf die Wünsche der Kunden reagieren zu können und um Änderungen zu berücksichtigen die aufgrund von Architekturentscheidungen erforderlich sind Nachdem sich die Datenwissenschaft als Eckpfeiler in Organisationen und Unternehmen etabliert hat ist es nun zwingend erforderlich diesen entscheidenden Schritt auch für analytische Geschäftsprozesse durchzuführen Die nicht deterministische Natur der Datenwissenschaft und die ihr innewohnenden analytischen Aufgaben erfordern einen interaktiven Ansatz für eine evolution
