*A Clinician's Guide to Suicide Risk Assessment and Management* Joseph Sadek, 2018-11-21 This book offers mental health clinicians a comprehensive guide to assessing and managing suicide risk. Suicide has now come to be understood as a multidimensionally determined outcome which stems from the complex interaction of biological, genetic, psychological, sociological and environmental factors. Based on recent evidence and an extensive literature review, the book provides straightforward essential information that can easily be applied in a wide variety of disciplines.

**Understanding Anxiety at School** Rachel Thynne, 2024-09-26 An increasing number of children face feelings of anxiety and isolation negatively impacting their mental health and wellbeing as well as their attainment in school. Having battled social anxiety herself, Rachel Thynne knows first hand how hard it can be to be misunderstood and receive little help. By understanding the communicative function of behaviours and seeing the person behind their actions, staff can learn to support and nurture pupils with consistency, empathy and positivity. This book explores anxiety in children and young people, unpicking social anxiety, situational mutism, school anxiety and separation anxiety within a school context and shining a light on the importance of relationships, effective communication and self-regulation skills. A wealth of strength-based strategies are provided that can be implemented quickly and easily by busy school staff to alleviate anxiety, build self-esteem and increase feelings of safety and belonging. The book also supports sensitive and collaborative work with caregivers to achieve the biggest impact and includes real-life examples, case studies and reflective opportunities to bring theory to life. Little adjustments can make a huge difference and have a positive lifelong effect on the individual but also on the other pupils. Advocating for whole-school approaches to create a culture where all pupils can thrive, *Understanding Anxiety at School* will enable school staff, including teachers and special educational needs coordinators (SENCOs), to recognise signs of anxiety and to provide support empathically and compassionately.
