Inspire, Empower, Connect Anne Chan, 2010-01-16 Mentoring is a hot buzzword these days Unfortunately although the word mentoring is used all the time most people do not know what it means This book fills that gap by describing and illustrating the essential practices of outstanding mentors It provides a realistic look at mentoring by showing what goes on in a mentoring relationship and what mentors actually do with their protégés This book makes a unique contribution through its hands on approach to the thorny issue of cross racial and cross cultural differences in mentoring relationships The book shows how such differences can be handled successfully and can even enrich a mentoring relationship Specific mentoring practices and their racial cultural implications are presented and explained The book gives readers a clear sense of what they can do to mentor and make a real difference even when their protégés are radically different from themselves

Scholarships and Exhibitions University of Cambridge, 1892 *The A's and B's of Academic Scholarships* Anna Leider, 2003-09 **Scholarship Reconsidered** Ernest L. Boyer, 1997-11-28 Throughout the country educators and their critics are renewing the old debate over the faculty's preoccupation with research and its effects on the quality of teaching. On one campus after another there are stirrings that seem to presage a willingness to think afresh about the criteria that determine tenure and measure the success of faculty careers. *Scholarship Reconsidered* speaks directly to these issues and should enrich a growing debate that may have important consequences for higher education. Derek Bok, Harvard University. *Scholarship Reconsidered* is a thoughtful and welcome addition to a growing conversation about teaching and research in the nation's universities. That conversation too readily evokes a dichotomous relation between two activities: one entailing the production of new knowledge and the other the dissemination of the old. This report from the Carnegie Foundation will, I hope, begin the long task of dispelling this polarity. Donald Kennedy, Stanford University. *Scholarship Reconsidered* will provide a vital contribution to improved undergraduate instruction through its recognition of the necessary contribution of scholarship teaching. The report accurately describes the dependence of collegiate instruction on scholarship in a manner which appreciates the strengths of American higher education and shows how to use these strengths to improve it. Ernst Benjamin, American Association of University Professors. *Scholarship Reconsidered* is wise and sensible, a welcome constellation of virtues. It will be a greatly influential guide to people who care about teaching and learning in the United States today. Catherine R. Stimpson, Rutgers. In this groundbreaking study, Ernest L. Boyer offers a new paradigm that recognizes the full range of scholarly activity by college and university faculty. He suggests that four general areas of endeavor be viewed as scholarship: discovery, integration of knowledge, teaching, and service. Boyer questions the existence of a reward system that pushes faculty toward research and publication and away from teaching and proposes reconsidering the priorities of the professoriate. **Only Connect!** Gungwu Wang, 2001. Gungwu National U of Singapore explores encounters between the peoples of the China coasts and the Malay archipelago during the period of British Malaya and the independent Federation of Malaysia. He has added seven new essays to augment 11 that appeared in *Community and Nation* 1992, now out of print. Distributed in the US by ISBS. Annotation copyrighted by Book News Inc. Portland, OR.
