**Political Science Research Methods: Exploring America At A Crossroads** Cal Clark, 2013-08-28 The principal goal of this textbook is to provide clear and elementary descriptions of the major statistical techniques used in political and social science research The book is built on two basic assumptions First that it is possible to explain social science statistics in a simple and straightforward manner so that students with a minimal background in math can understand even fairly advanced techniques such as multiple and logistic regression Second that undergraduate and even graduate students have less trouble in understanding specific techniques than in interpreting what statistical results mean substantively Consequently the book stresses the interpretation of research findings In essence the book argues that political science research is like piecing a jigsaw puzzle together Pieces of information statistical and non statistical must be assembled and interpreted both logically and creatively The text is organized in a unique manner using the various techniques being discussed to analyze the current state of the United States as it seemingly stands at a crossroads in both its political orientations and socioeconomic nature To make the statistical interpretation more meaningful and easier to understand the results throughout the book are integrated by their focus upon two central questions related to the theme of America at a Crossroads Are Americans conservative or liberal in their political beliefs How do economic and social outcomes in America compare to those in other developed democracies

**The Sociology of Return Migration: A Bibliographic Essay** Frank Bovenkerk, 2013-06-29 1 1 Why this essay It is customary for the author on return migration to complain about the lack of theoretical and empirical knowledge on his subject Three recent general handbooks on the sociology of migration Jackson 1969 Jansen 1970 and Albrecht 1972 produce together no more than 10 sources on return migration The by Mangalam 1968 although extensive migration bibliography giving no less than 2051 titles still comes up with no more than 10 sources It is true that not so many books and articles are devoted exclusively to return migration Appleyard 1962a 1962b Cerase 1967 1970 Committee 1967 Davison B 1968 Dietzel 1971 Elizur 1973 Feindt Browning 1972 Form Rivera 1958 Frohlich Schade 1966 Hernandez Alvarez 1967 1968 Kraak 1957a 1957b 1958 Kayser 1972 Myers Masnick 1968 Migration News 1969 McDonald 1963 O E CD 1967a 1967b Patterson H O 1968 Richmond 1967a 1967b 1968 Richardson 1968 Saloutos 1956 Stark 1967b Vanderkamp 1972 Vagts 1960 and Wilder Okladek 1969 But this does not imply that no further research has been done and that therefore every new student of return migration had to begin from scratch In numerous studies on emigration migrant labour immigration integration and assimilation room has been made for a chapter or a paragraph on those who returned or the migrants return I've found the demographical periodical Population Index relatively useful in tracing the subject 1 2 *Science* John Michels (Journalist), 1887 Vols for 1911 13 contain the Proceedings of the Helminothological Society of Washington ISSN 0018 0120 1st 15th meeting
