Power Reproduction And Gender The Intergenerational Transfer Of Knowledge:

Power, Reproduction And, Gender Wendy Harcourt,1997 Drawing on material from a wide variety of societies all immersed in deep change the contributors investigate when and why people change their reproductive and sexual behaviour and how knowledge is transferred within and between the generations *Labour Migration and Social Development in Contemporary China* Rachel Murphy,2008-10-08 This book examines labour migration in China focusing in particular on the social dimensions exploring important issues including poverty alleviation inequality social insurance health and education and the role of NGOs It considers the impact of changing government policy which has made social issues more central to national development policies **Contraception across Cultures** Andrew Russell,Mary Thompson,Elisa J. Sobo,2020-06-04 Contraception is an issue of considerable concern to a great many heterosexually active people Yet the impact of contraceptive technologies in the world today in particular their implications for kinship gender relations and other aspects of social life receives relatively little scholarly attention This book brings a new perspective to the study of contraception by collecting together in one volume leading experts in the fields of contraception family planning and reproductive health Contributors look at the social economic political and cultural contexts in which contraceptive providers and recipients make decisions about whether and what forms of contraception to use User perspectives whether those of recipients or providers of contraceptive services are taken seriously as are the perspectives of policy makers and development experts With its in depth case study approach this challenging book will appeal to practitioners and planners in the fields of family planning and reproductive health as well as to students and academics of applied and medical anthropology health studies gender and development studies or anyone interested in the social cultural and ethical issues raised by contraceptive technologies

Birth Control, Sex, and Marriage in Britain 1918-1960 Kate Fisher,2006-07-13 The first half of the twentieth century witnessed a revolution in contraceptive behaviour as the large Victorian family disappeared This book offers a new perspective on the gender relations sexual attitudes and contraceptive practices that accompanied the emergence of the smaller family in modern Britain Kate Fisher draws on a range of first hand evidence including over 190 oral history interviews in which individuals born between 1900 and 1930 described their marriages and sexual relationships By using individual testimony she challenges many of the key conditions that have long been envisaged by demographic and historical scholars as necessary for any significant reduction in average family size to take place Dr Fisher demonstrates that a massive expansion in birth control took place in a society in which sexual ignorance was widespread that effective family limitation was achieved without the mass adoption of new contraceptive technologies that traditional methods such as withdrawal abstinence and abortion were often seen as preferable to modern appliances such as condoms and caps that communication between spouses was not key to the systematic adoption of contraception and above all that women were not necessarily the driving force behind the attempt to avoid pregnancy Women frequently avoided involvement in family planning decisions and

practices whereas the vast majority of men in Britain from the interwar period onward viewed the regular use of birth control as a masculine duty and obligation By allowing this generation to speak for themselves Kate Fisher produces a richer understanding of the often startling social attitudes and complex conjugal dynamics that lay behind the vast changes in contraceptive behaviour and family size in the twentieth century

Why Yemen Matters Helen

Lackner,2014-06-26 In November 2011 an agreement brokered by the GCC brought an end to Yemen s tumultuous uprising The National Dialogue Conference has opened a window of opportunity for change bringing Yemen s main political forces together with groups that were politically marginalized Yet the risk of collapse is serious and if Yemen is to remain a viable state it must address numerous political social and economic challenges In this invaluable volume experts with extensive Yemen experience provide innovative analysis of the country s major crises centralized governance the role of the military ethnic conflict separatism Islamism foreign intervention water scarcity and economic development This is essential reading for academics journalists development workers diplomats politicians and students alike
