Philosophes Critiques D'eux-mêmes, 1975 **Philosophes Critiques D'eux-mêmes** André Mercier, Maja Svilar, 1984 Dans un monde qui construit des barrières entre l'Occident et l'Orient et qui parle de gradient du Nord au Sud les r dacteurs ont pris l'initiative de rassembler des penseurs contemporains par dessus les frontières et les mers Chaque volume présente une palette variée de leurs vues sur leurs propres travaux philosophiques In a world which sets up barriers between East and West and speaks of a descent from North to South the Editors have taken the initiative to lead contemporary thinkers together across all borders and seas Each volume presents a many coloured palette of the views they hold on their own philosophical work In einer Welt die zwischen Ost und West Schranken errichtet und von einem Gefälle zwischen Nord und Süd spricht haben die Herausgeber dieser Reihe die Initiative ergriffen zeitgenössische Denker über alle Grenzen und Meere hinweg zusammenzuführen Jeder Band enthält eine bunte Palette von Betrachtungen über deren eigenes philosophisches Schaffen **Mindsteps to the Cosmos** Gerald S. Hawkins, 1984 **The Stories We Live by** Dan P. McAdams, 1993 Who am I How do I fit in the world around me This revealing and innovative book demonstrates that each of us discovers what is true and meaningful in our lives and in ourselves through the creation of personal myths Challenging the traditional view that our personalities are formed by fixed unchanging characteristics or by predictable stages through which every individual travels *The Stories We Live By* persuasively argues that we are the stories we tell Informed by extensive scientific research yet highly readable engaging and accessible the book explores how understanding and revising our personal stories can open up new possibilities for our lives **Religion and the American Future** Christopher C. DeMuth, Yuval Levin, 2008 Religious belief is thriving in America today even though it seems under assault as seldom before attacked by secularists scientists and increasingly vocal atheists constrained by judges and civil libertarians mocked by contemporary artists and treated pragmatically if not cynically by politicians seeking votes This book explores the enduring strength of religion in American life Faith and religious observance are not obsolete or incompatible with modern society on the contrary the religious principles that guided the Founders continue to bind the nation and justify human endeavor In *Religion and the American Future* a distinguished group of scholars examine the future of religion in America Michael Novak

John C Green Leon R Kass Douglas W Kmiec Roger Kimball and Marcello Pera contemplate in turn the relationship of religion to the dominant secular realms of politics science law and art They argue that the religious and the secular realms should construct a mutual and productive understanding that faith based voting is not the threat it often seems that science cannot answer humanity s deepest moral inquiries and that the United States Constitution presupposes the existence of God The volume concludes with an instructive look at Europe and the troubling implications of turning away from religious belief altogether Religion and the American Future is a lively learned dialogue on the role of religion in American society The contributors raise their voices in opposition to the tide of cynicism and constraint that often overwhelms religion in public life and argue that tolerance respect and free expression must define the future of religion in America Book jacket
