Memes Today Protein Breakfast Review:

Food for Thought Simona Stano, Amy Bentley, 2021-09-18 This volume offers new insights into food and culture Food habits preferences and taboos are partially regulated by ecological and material factors in other words all food systems are structured and given particular functioning mechanisms by specific societies and cultures either according to totemic sacrificial hygienic rationalist aesthetic or other symbolic logics This provides much food for thought The famous expression has never been so appropriate not only do cultures develop unique practices for the production treatment and consumption of food but such practices inevitably end up affecting food related aspects and spheres that are generally perceived as objectively and materially defined This book explores such dynamics drawing on various theoretical approaches and analytical methodologies thus enhancing the cultural reflection on food and at the same time helping us see how the study of food itself can help us understand better what we call culture It will be of interest to anthropologists philosophers
