Work Arrangements for Research and Policy National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Committee on Contingent Work and Alternative Work Arrangements, 2020-11-07 Business structures employment relationships job characteristics and worker outcomes have changed in the United States over the last few decades in some ways unpredictably A high level of interest exists among policy makers and researchers in addressing concerns about the future of work in the United States These concerns are heightened by the perceived fracturing of relationships between workers and employers the loss of safety net protections and benefits to workers the growing importance of access to skills and education as the impacts of new technologies and automation are felt and the market based pressure that companies face to produce short term profits sometimes at the expense of long term value These issues as well as related ones such as wage stagnation and job quality are often associated with alternative work arrangements AWAs which include independent contractor and other nonemployee jobs work through intermediaries such as temporary help agencies and other contract companies and work with unpredictable schedules although they also pertain to many standard jobs A better understanding of the magnitude of and trends in AWAs along with the implications for job quality is needed to develop appropriate policies in response to the changing nature of work Measuring Alternative Work Arrangements for Research and Policy reviews the Contingent Worker Supplement CWS of the Current Population Survey CPS for the Bureau of Labor Statistics BLS in the U S Department of Labor The CWS provides key measures of temporary contingent work alternative work arrangements and the gig economy Disagreements however exist among researchers policy makers and other stakeholders about the definitions and measures of

these concepts and priorities for future data collection The report also reviews measures of employment earnings and worker well being in temporary and alternative work arrangements that can be estimated using household survey data such as those generated by the CWS as well as measures that can be produced using administrative commercial and combined data sources The comparative advantages and complementarities of different data sources will be assessed as well as methodological issues underpinning BLS s measurement objectives

The Power Law Sebastian Mallaby,2022-01-25 From an award winning financial historian comes the gripping character driven story of venture capital and the world it made Innovations rarely come from experts Jeff Bezos was not a bookseller Elon Musk was not in the auto industry When it comes to innovation a legendary venture capitalist told Sebastian Mallaby the future cannot be predicted it can only be discovered Most attempts at discovery fail but a few succeed at such a scale that they more than make up for everything else That extreme ratio of success and failure is the power law that drives venture capital Silicon Valley the tech sector and by extension the world Drawing on unprecedented access to the most celebrated venture capitalists of all time award winning financial historian Sebastian Mallaby tells the story of this strange tribe of financiers who have funded the world s most successful companies from Google to SpaceX to Alibaba With a riveting blend of storytelling and analysis The Power Law makes sense of the seeming randomness of success in venture capital an industry that relies for good and ill on gut instinct and personality rather than spreadsheets and data We learn the unvarnished truth about some of the most iconic triumphs and infamous disasters in the history of tech from the comedy of errors that was the birth of Apple to the venture funding that fostered hubris at WeWork and Uber to the industry s notorious lack of women and ethnic minorities Now the power law echoes around the world it has transformed China s digital economy beyond recognition and London is one of the top cities for venture capital investment By taking us so deeply into the VCs game The Power Law helps us think about our own future through their eyes
