**Capitalist Cold** Agnes Arndt, Kerstin Maria Pahl, 2025-01-24 The capitalist system has often been described by its critics as a heartless economic structure corroding social bonds and symbolic values Its defenders and analysts likewise use narratives that position emotions as central to the economy This book enquires into the history of these framings To explore the role of emotions in economic practices and imaginaries the volume presents case studies including original rereadings of well known texts such as Theodor Adorno and Max Horkheimer's Dialectic of Enlightenment as well as forays into little known histories such as representations of capitalists in post war Turkey and how art dealers strategically used emotions for navigating the market in interwar Germany Rather than simply reproducing the image of cold capitalism however it offers nuanced investigations into the ambivalent images evoked by living and working within economic structures In late socialist Poland capitalism felt warm and fuzzy while pop culture of the seventies found it not destructive but cool hip and edgy This book is aimed at students and scholars of social economic and cultural history The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Modernist Time Ecology** Jesse Matz, 2018-12-03 A new view of the way modernist fiction writers tried to solve the problem of time Do our fictions transform time Do they cultivate the temporal environment Such was the hope or the fantasy at work in many modernist novels for which time was not only the major subject but also an object of reparative aspiration Aimed at a kind of stewardship of time these fictions constitute a practice of modernist time ecology an effort to restore those landscapes of time that have been thrown into crisis by modernity In Modernist Time Ecology Jesse Matz redefines temporal

experimentation in central writers like Proust Mann Woolf Ellison and Cather who developed literary forms to cultivate restore and enrich the temporal environment He brings fresh attention to others who best exemplify this ecological motive arguing that E M Forster J B Priestley and V S Naipaul are leading figures in this practice of temporal redress Matz also reveals how contemporary film social media movements and public service efforts show what has become of the modernist interest in temporal stewardship Matz combines an array of disciplines including narrative theory sociology phenomenology cognitive psychology film studies queer theory and environmental studies to theorize and explain the rationale and the limits to the idea that time might be subject to textual cultivation Modernist Time Ecology is a deeply interdisciplinary book that changes what we think literature and the arts can do for the world at large The Durham University Journal ,1970
