Aliens, Robots & Virtual Reality Idols in the Science Fiction of H. P. Lovecraft, Isaac Asimov and William Gibson John L. Steadman, 2020-10-30 Steadman s comprehensive guide wrestles with the concept of the alien applying cutting edge theoretical and philosophical ideas to the work of some of the greats of Science Fiction to arrive at a set of exciting new discoveries about what the genre says it means to be human Reading Aliens Robots and Virtual Reality Idols guarantees that you will never look at the writing of Lovecraft Asimov or Gibson in the same way

again Dr David Simmons Senior Lecturer in English and Screen Studies University of Northampton H P Lovecraft's aliens are extra terrestrial trans dimensional entities totally unlike any other aliens in science fiction literature In contrast Isaac Asimov's and William Gibson's aliens are human created positronic robots and virtual reality constructs or idols Lovecraft's great theme is alien indifferentism tinged with a malevolence that escalates into an existential apocalyptic threat against humankind while for Asimov and Gibson alien inclusionism is the norm The robots and the VR idols integrate into society and their influence appears to be beneficial But this is only on the surface In this book John L Steadman demonstrates that there is ultimately little difference between alien indifferentism and alien inclusionism in the fictional works of these three great writers For in fact the robots and the VR idols evolve into monsters whose actions bring about outcomes which are every bit as terrifying as anything in Lovecraft's work Humans tend to be isolated alienated The reader is invited to question this and to consider the possibility that an alien perspective or platform might perhaps be crucial if we intend on seeing ourselves clearly and understanding exactly what it means to be human

Making Witches Barbara Rieti, 2009-07-15 There is a little known tradition of witch lore in Newfoundland culture Those believed to have the power to influence the fortunes of others are not mythological characters but neighbours relations or even friends Drawing from her own interviews and a wealth of material from the Memorial University Folklore and Language Archive Barbara Rieti explores the range and depth of Newfoundland witch tradition looking at why certain people acquired reputations as witches and why others considered themselves bewitched The tales that emerge despite their seemingly fantastic elements of spells and black heart books hags and healing charms concern everyday affairs and reveal the intense social interdependence central to outport life Frequently featuring women they provide fascinating new perspectives on female coping strategies in a volatile economy By addressing the perennial human issues at the heart of witchcraft construction of enmity and intertwined fate these narrative accounts also illuminate older witch beliefs revealed in witchcraft trial documents Making Witches shows that in storytelling communities with a rich legacy of witch lore witch tradition has endured well into the twentieth century
