The Social Science Encyclopedia Adam Kuper, 2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society

### Changing Life Peter J.

Taylor, Saul E. Halfon, Paul N. Edwards, 1997 In laboratories all over the world life even the idea of life is changing And with these changes whether they result in square tomatoes or cyborgs come transformations in our social order sometimes welcome sometimes troubling Changing Life offers a close look at how the mutable forms and concepts of life link the processes of science to those of information finance and commodities These essays about planetary management and genome sequencing ecologies and cyborgs address actual and imagined transformations at the center and at the margins of transnational relations during the post Cold War era and in times to come
